The Reception of English Literature in Germany Lawrence Marsden Price,1932 **The Reception of English Literature in Germany** Lawrence M. Price,1932 **The Reception of English Puritan Literature in Germany** Peter Damrau,2006 This is the first study to demonstrate the impact of Puritan literature on the development of German language and literature in the seventeenth century and beyond It crosses the boundaries of theology literature and the English and German traditions to show that eighteenth century secular thinking on introspection psychology and subjectivity has its roots in vocabulary used in Germany as early as 1665 through the translation of figures such as Daniel Dyke and Richard Baxter The book concludes with insights on John Bunyan whose works inspired writers of the Geniegeneration such as Lenz Wieland Moritz and Jung Stilling **The Reception of English Literature in Germany** Price,1968 **Anglo-German Dramatic and Poetic Encounters** Michael Wood,Sandro Jung,2019-06-27 Focusing on particular cases of Anglo German exchange in the period known as the Sattelzeit 1750 1850 this volume of essays explores how drama and poetry played a central role in the development of British and German literary cultures With increased numbers of people studying foreign languages engaging in translation work and traveling between Britain and Germany the eighteenth and nineteenth centuries gave rise to unprecedented opportunities for intercultural encounters and transnational dialogues While most research on Anglo German exchange has focused on the novel this volume seeks to reposition drama and poetry within discourses of national identity intercultural transfer and World Literature The essays in the collection cohere in affirming the significance of poetry and drama as literary forms that shaped German and British cultures in the period The essays also consider the nuanced movement of texts and ideas across genres and cultures the formation and reception of poetic personae and the place of illustration in cross cultural textual exchange **The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800** George Watson,Ian R. Willison,1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries *Benedikte Naubert (1756-1819) and Her Relations to English Culture* Hilary Brown,2005 The 18th century saw the first significant phase of cultural interchange between Britain and Germany This study examines the part played in this process by women writers who were entering the literary world in large numbers for the first time It asks whether women whether a cross cultural female literary tradition emerged during the period *The Corvey Library and Anglo-German Cultural Exchanges, 1770-1837* Rainer Schöwerling,2004 **Catalogue University of California Press Publications 1893-1943** California.

University. Press, University of California Press, 1944 *Cultural Transfer through Translation*, 2010-01-01 Given that the dissemination of enlightened thought in Europe was mostly effected through translations the present collection of essays focuses on how its cultural adaptation took place in various national contexts For the first time the theoretical model of cultural transfer Espagne Werner is applied to the eighteenth century The intercultural dynamics of the Enlightenment become manifest in the transformation process between the original and target cultures be it by way of acculturation creative enhancement or misunderstanding Resulting in shifts of meaning translations offer a key not just to contemporary translation practice but to the discursive network of the European Enlightenment in general The case studies united here explore both how translations contributed to the transnational standardisation of certain key concepts values and texts and how they reflect national specifications of enlightened discourses Hence the volume contributes to Enlightenment studies at least as much as to historical translation studies
