Virginia Woolf's Portraits of Russian Writers Darya Protopopova, 2019-02-05 Virginia Woolf always stayed ahead of her time Championing gender equality when women could not vote publishing authors from Pakistan France Austria and other parts of the world while nationalism in Britain was on the rise and befriending outcasts and social pariahs As such what could have possibly interested her in the works of nineteenth century Russian writers austere and at times misogynistic thinkers preoccupied with peasants priests and paroxysms of the soul This study explains the chronological and cultural paradox of how classic Russian fiction became crucial to Woolf's vision of British modernism We follow Woolf as she begins to learn Russian invents a character for a story by Dostoevsky ponders over Sophia Tolstoy's suicide note and proclaims Chekhov a truly modern writer The book also examines British modernists' fascination with Russian art looking at parallels between

Roger Fry's articles on Russian Post Impressionists and Woolf's essays on Chekhov, Dostoevsky, Tolstoy and Turgenev

European Intertexts Patsy Stoneman, Ana María Sánchez-Arce, Angela Leighton, 2005 *European Intertexts* is the first fruit of an ongoing collaborative study aiming to challenge the isolationism of much critical work on English literature by exploring the interdependence of English and continental European literatures in writing by women. While later volumes will deal with specific texts, this introductory volume provides a descriptive framework and a theoretical basis for studies in the field. Covering issues such as the role of English as a world language, the definition of Europe and the current state of Translation Studies, the book also surveys theories of intertextuality and demonstrates intertextual links between written and visual and film texts. This book is itself pioneering in making a systematic approach to women's writings in English in the context of other European cultures. Although Europe is a political reality, this cultural interpenetration remains largely unexamined, and these essays represent an important first step towards revealing that unexplored richness. **Literary**

Digital Stylistics in Translation Studies Anna Maria Cipriani, 2023-11-20 This book presents a systematic literary comparison of the retranslations by adopting a mixed method and bottom-up inductive approach by developing an empirical corpus approach. This corpus is specifically tailored to identify and study linguistic and non-linguistic modernist features throughout the texts, such as stream of consciousness, indirect interior monologue, and free indirect speech. All occurrences are analysed quantitatively in the computations of inferential and comparative statistics, such as tests of time trends, lexical variety, and lexical frequency. The target texts are digitised, and the resulting text files are then analysed using a bespoke novel computer program capable of the functions not provided by commercially available software, such as WordSmith Tools and WMatrix. This methodology enables in-depth explorations of micro and macro textual features and allows a mixed method approach combining close reading, qualitative analysis, with systematic quantitative comparisons. The empirical study of the digital corpus of eleven Italian re-translations of Virginia Woolf's *To the Lighthouse* identifies a progressive source text orientation only in a relatively few aspects of a few target texts. The translators' presence affects all the examined target texts in terms of register and style under the influence of the Italian translation norms usually attributed to the translation of literary classics. Its intended readership comprises students of the mentioned fields and the general public of readers, editors, and publishers.
