Recherche De La Langue Parfaite:

La recherche de la langue parfaite dans la culture européenne Umberto Eco, 1994 Encyclopédie en quête tant sur la langue initiale avant Babel que sur les tentatives de créer une langue idéale et unique après ce chaos. Suivant la trame historique d'Adam l'espéranto l'auteur volubile et goguenard nous entraîne dans une entreprise culturelle ahurissante. *La recherche de la langue parfaite dans la culture européenne* Umberto Eco, 1997 La recherche de la langue parfaite Au cours des siècles l'unité linguistique et politique du monde romain entre en crise et commencent à sonner ces langues que l'Europe parle aujourd'hui encore la culture européenne mûrit de nouveau l'épisode biblique de la confusion linguarum et tente de guérir la blessure de la Tour de Babel en essayant de récupérer la Langue Adamique ou de la reconstruire comme Langue Parfaite. Quelques unes des personnalités les plus marquantes de la culture européenne se sont consacrées à ce rêve et bien que leurs utopies ne soient pas réalisées chacune d'entre elles a produit des effets collatéraux. C'est pour cette raison que si nous connaissions aujourd'hui le monde naturel travers les taxinomies rigoureuses si nous inventons des langages pour les machines si nous tentons des expériences de traduction automatique nous sommes encore en quelque sorte des bêtards de ces tentatives multiples de retrouver une langue adamique. The Search for the Perfect Language Umberto Eco, 1997-04-08 The idea that there once existed a language which perfectly and unambiguously expressed the essence of all possible things and concepts has occupied the minds of philosophers theologians mystics and others for at least two millennia This is an investigation into the history of that idea and of its profound influence on European thought culture and history From the early Dark Ages to the Renaissance it was widely believed that the language spoken in the Garden of Eden was just such a language and that all current languages were its decadent descendants from the catastrophe of the Fall and at Babel The recovery of that language would for theologians express the nature of divinity for cabbalists allow access to hidden knowledge and power and for philosophers reveal the nature of truth Versions of these ideas remained current in the Enlightenment and have recently received fresh impetus in attempts to create a natural language for artificial intelligence The story that Umberto Eco tells ranges widely from the writings of Augustine Dante Descartes and Rousseau arcane treatises on cabbalism and magic to the history of the study of language and its origins He demonstrates the intimate relation between language and identity and describes for example how and why the Irish English Germans and Swedes one of whom presented God talking in Swedish to Adam who replied in Danish while the serpent tempted Eve in French have variously claimed their language as closest to the original He also shows how the late eighteenth century discovery of a proto language Indo European for the Aryan peoples was perverted to support notions of racial superiority To this subtle exposition of a history of extraordinary complexity Umberto Eco links the associated history of the manner in which the sounds of language and concepts have been written and symbolized Lucidly and wittily written the book is in sum a tour de force of scholarly detection and cultural interpretation providing a series of original perspectives on two thousand years of European

History The paperback edition of this book is not available through Blackwell outside of North America Chamoiseau ou les voix de Babel Noémie AUZAS, 2009-10-20 Nombre d'crivains associent plusieurs langues dans leurs écrits passant de l'une à l'autre ou cachant l'une sous le masque de l'autre Parmi ces funambules du verbe Patrick Chamoiseau puise dans la confrontation du français et du créole la source vive de son inspiration Romans et essais du grand auteur antillais l'attestent les langues ne sont pas neutres car elles suscitent et cristallisent de multiples images Mais comment concilier le créole hanté par la souffrance de l'esclavage et l'orgueilleux français promu par l'école d'une République lointaine Comment transformer les tensions linguistiques en harmonie polyphonique <http://www.editions-imago.fr> *Handbook of Multilingualism and Multiculturalism* Geneviève Zarate, 2011 Built around the concept of linguistic and cultural plurality this book defines language as an instrument of action and symbolic power Plurality is conceived here as a complex array of voices perspectives and approaches that seeks to preserve the complexity of the multilingual and multicultural enterprise including language learning and teaching a coherent system of relationships among various languages research traditions and research sites that informs qualitative methods of inquiry into multilingualism and its uses in everyday life a view of language as structured sociohistorical object observable from several simultaneous spatiotemporal standpoints such as that of daily interactions or that which sustains the symbolic power of institutions This book is addressed to teacher trainers young researchers decision makers teachers concerned with the role of languages in the evolution of societies and educational systems It aims to elicit discussion by articulating practices field observations and analyses based on a multidisciplinary conceptual framework
