Creative Life Rice Freeman-Zachery, 2007-08-15 How DO they do it? If you could ask your favorite artist or crafter only one question, chances are you'd ask about creativity. Where do your ideas come from? How did you get started? What are your tricks for overcoming blocks? In Living the Creative Life, author Ric Freeman Zachery has compiled answers to these questions and more from 15 successful artists in a variety of mediums from assemblage to fiber arts, beading to mixed media collage. Creativity is different for everyone and these artists share their insights on the muse if you believe in her, keeping a sketchbook or not, and prioritizing your art whether you aspire to create solely for your own pleasure or to become a full time artist. Try your hand at creative jumpstarts straight from the pros. Glimpse the artists' innermost thoughts and works in progress as you peruse pages from their journals and notebooks. Share textile artist Sas Colby's triumph over creative block during an exotic art retreat. Learn how internationally acclaimed artist James Michael Starr uses experience from his former day job to fuel his creation today. Explore the work of Michael deMeng, Claudine Hellmuth, Melissa Zink, and the other artists right alongside their insights. No crafter or artist should live the creative life without Living the Creative Life. The inspiration is contagious. Creative Life Bandhu Dunham, 2020-01-01 This book is about the interface of art and spirituality in everyday life. In language that is both elegant and streetwise, Creative Life presents practical means whereby any serious artist can develop greater clarity, dignity, generosity, and insight. The author's reflections about the nature of spirit, which he defines as inspiration, affirm that art is meant to be shared. This isn't a book only for painters or musicians. Non-artists also will find Dunham's considerations, including those about wishful thinking, procrastination, and life as art, to be applicable.

Cells to Civilizations Enrico Coen, 2012-05-27 The science of change from cells to culture. Cells to Civilizations is the first unified account of how life transforms itself from the production of bacteria to the emergence of complex civilizations.

What are the connections between evolving microbes an egg that develops into an infant and a child who learns to walk and talk Award winning scientist Enrico Coen synthesizes the growth of living systems and creative processes and he reveals that the four great life transformations evolution development learning and human culture while typically understood separately actually all revolve around shared core principles and manifest the same fundamental recipe Coen blends provocative discussion the latest scientific research and colorful examples to demonstrate the links between these critical stages in the history of life Coen tells a story rich with genes embryos neurons and fascinating discoveries He examines the development of the zebra the adaptations of seaweed the cave paintings of Lascaux and the formulations of Alan Turing He explores how dogs make predictions how weeds tell the time of day and how our brains distinguish a Modigliani from a Rembrandt Locating commonalities in important findings Coen gives readers a deeper understanding of key transformations and provides a bold portrait for how science both frames and is framed by human culture A compelling investigation into the relationships between our biological past and cultural progress *Cells to Civilizations* presents a remarkable story of living change
