Schmidts Emphasizes design and economic issues that urban planners and city officials need to plan successful projects as well as manage spontaneous neighborhood transformations such as loft conversions Includes case studies of a variety of redevelopments from across North America and Europe ranging from large projects such as New York s Hudson River Park and Amsterdam s harbor to the small but important neighborhood regenerators such as Baltimore s American Brewery Building for Humanism Examines how cities from Minneapolis Minnesota to North Adams Massachusetts to Swansea Wales harnessed the forces of tourism and art to transform their mills and harbors Providing historical context as well as current perspective Redeveloping Industrial Sites offers clear direction on repurposing derelict and polluted wastelands and warehouses into vital living extensions of their communities

Principles of Brownfield Regeneration Justin

Hollander,Niall Kirkwood,Julia Gold,2010-09-02 The U S EPA defines brownfields as idle real property the development or improvement of which is impaired by real or perceived contamination The authors of Principles of Brownfield Regeneration argue that compared to greenfields farmland forest or pasturelands that have never been developed brownfields offer a more sustainable land development choice They believe that brownfields are central to a sustainable strategy of thwarting sprawl preserving or regenerating open space reducing greenhouse gas emissions and reinvesting in urbanized areas Drawing on interviews with people involved in brownfield projects as well as on their own considerable expertise the authors use five case studies to describe the steps for cleaning up a site and creating viable land for development or open space

Local Economic Development and the Environment Susan M. Opp,Jeffery L. Osgood, Jr.,2013-03-22 A clear and practical examination of complex issues Local Economic Development and the Environment Finding Common Ground provides a broad academic look at the intersection of two important areas for local administrators In addition to managing development in a strained economic climate most administrators are also expected to be stewards of the environment However economic conditions often leave them with limited options for pursuing economic development and at the same time being environmentally mindful Many find themselves without a clear understanding of the concepts tools and best practices available to accomplish this herculean task Translating complex environmental and economic concepts into easily applicable practices the book Gives practitioners the information they need to communicate with consultants constituents and officials and to avoid ideological obstacles Compares regulatory differences between states and other geographical differences Includes examples from across the country to highlight variations in environmental regulations and laws Provides technical legal and political insights into the process of pursuing local economic development projects that incorporate protection and awareness Contains case studies that demonstrate the concepts in action allowing readers to fully grasp the complexities associated with sustainable economic development Discusses how local administrators can balance the economic and environmental needs of the future Bridging the gap between policy making intention and outcome this book connects readers with a larger body of research that not only underpins practical applications but also helps them avoid legal technical and

political obstacles It provides an arsenal of best practices and everyday easy to use strategies for optimizing the difficult balance between economic development and environmental protection

Battleground: Environment Robin Morris Collin, 2008-07-30 The environment inflames passions in people on all points of the political spectrum Controversies over such issues as the rise of cancer in industrialized countries climate change and urban sprawl have skyrocketed as we recognize the impact that humans have on the environment Many people become immersed in these controversies at a local level before they know much about the topic the nuances of many environmental conflicts are often overlooked as the media focuses on the adversarial nature of the conflict This reference resource provides students teachers librarians and citizens as a whole with the necessary first step in understanding these hot button issues Each entry identifies the issue involved who was holding various points of view or positions where and when the conflict occurred and explains the cultural social and political context and dimensions of the conflict Battleground Environment provides in depth analysis of over 100 of the most controversial topics involving the environment including childhood asthma the Kyoto Summit and Treaty smart growth the Three Gorges Dam in China and genetically modified food Entries include descriptions of public policies and discussions of the future of the controversy Each entry concludes with cross references and a short relevant bibliography suitable for student research The resource includes numerous sidebars that discuss in detail particular local controversies that illuminate the complexity of the topics discussed
