

The background of the entire cover is a stylized American flag. The top half features a blue field with white stars, and the bottom half features red and white stripes. In the center, the Statue of Liberty is depicted from the waist up, holding a torch aloft in her right hand. The statue is silhouetted against the stripes of the flag. The overall composition is patriotic and evokes a sense of national identity and history.

## **Rediscovering America:**

Rediscovering America Scott S. Powell, 2022-03-08 Ever wonder why everyone wants to immigrate to America Rediscovering America answers that question and it's like no other history you have ever read More than an account of people dates and events this story is about the hidden hand of a purposeful historical development where the main actors are colorful characters participating in an American drama of little known but remarkable events where overcoming incredible odds of failure is more unbelievable and engaging than fiction And while each chapter is a stand alone tale some quite wild about what is behind each of the American holidays the page and chapter turning appeal of Rediscovering America is in the narratives that link the holiday stories together revealing an account of progress and redemption in America covering over four hundred years never before told in a concise and readable book

### **Rediscovering America's Sacred Ground**

Barbara A. McGraw, 2012-02-01 Returning to the ideas of John Locke and the Founders themselves Barbara A McGraw examines the debate about the role of religion in American public life and unravels the confounded rhetoric on all sides She reveals that no group has been standing on proper ground and that all sides have misused terminology religion secular dichotomies public private and concepts separation of church and state in ways that have little relevance to the original intentions of the Founders She rediscovers a theology underlying the founding documents of the nation that is neither anyone's particular religion nor one requiring religion Instead it justifies freedom of conscience for all and provides a

two tiered public forum a civic public forum and a conscientious public forum for the debate itself and the actions that debate inspires America's Sacred Ground this theology and its public forum determines the meaning of freedom and the ways in which Americans can pursue the good good government good communities good families good relations between individuals and good individuals from a plurality of perspectives By exploring our past McGraw answers the critical question Who are we as a people and what do we stand for *Rediscovering America* Scott S. Powell, 2022-02-01 The only book ever written in the history genre that succinctly tells the progressive and redemptive course of America as revealed in the stories behind the American holidays Ever wonder why everyone wants to immigrate to America *Rediscovering America* answers that question and it's like no other history you have ever read More than an account of people dates and events this story is about the hidden hand of a purposeful historical development where the main actors are colorful characters participating in an American drama of little known but remarkable events where overcoming incredible odds of failure is more unbelievable and engaging than fiction And while each chapter is a stand alone tale some quite wild about what is behind each of the American holidays the page and chapter turning appeal of *Rediscovering America* is in the narratives that link the holiday stories together revealing an account of progress and redemption in America covering over four hundred years never before told in a concise and readable book Cahiers Du Cinema Jim Hillier, 1985 With admirable clarity Mrs Peters sums up what determines competence in spelling and the traditional and new approaches to its teaching Times Literary Supplement

**Rediscovering America** Wolfgang Holtkamp, 2017-02-18 American Studies unterliegen sowohl in den USA wie auch in Deutschland ständigen Veränderungen Gegenwärtig erfolgt eine Reorientierung der Inhalte und Methoden dieser Disziplin In *Rediscovering America* stellen Studierende und amerikanische Wissenschaftler gemeinsam Ergebnisse von Seminaren und Exkursionen in die USA vor und kommentieren aktuelle Entwicklungen in Amerika auf unterschiedliche Weise Dabei verbinden sie Methoden der traditionellen Analyse mit aktuellen kulturwissenschaftlichen Fragestellungen Behandelt werden die Themen American Cultural Regions The Situation of the American City Malls and Museums Theme Parks und America and Sports Die Aufsätze bieten vielfältige Einblicke in die amerikanische Kultur und öffnen vor allem ein Bewusstsein für Komplexität und Querverbindungen Philosophical Theory and the Universal Declaration of Human Rights William Sweet, 2003 *Philosophical Theory and the Universal Declaration of Human Rights* examines the relations and interrelations among theoretical and practical analyses of human rights Edited by William Sweet this volume draws on the works of philosophers political theorists and those involved in the implementation of human rights The essays although diverse in method and approach collectively argue that the language of rights and corresponding legal and political instruments have an important place in contemporary social political philosophy Published in English **Taking Religious Pluralism Seriously** Barbara A. McGraw, Jo Renee Formicola, 2005 The clash between the religious right and the secular left undermines any serious debate about the role of religion in American public life Such strident cultural rhetoric often ignores

the positive contributions of America's many religions. By contrast, this volume celebrates America's religious diversity, demonstrating that religious pluralism is actually one of democracy's basic building blocks. *Taking Religious Pluralism Seriously* expands on Barbara A. McGraw's framework for understanding religious participation in public life: a two-tiered public forum consisting of the civic public forum and the conscientious public forum. The chapters explore how diverse religious communities and traditions, including newer and marginalized religions, can make a meaningful contribution to American society and politics. *The Artisan*, 1921. *America Needs Human Rights*, Anuradha Mittal, Peter Rosset, 1999. The time has come to stand up for what's right in America. We may be in the middle of economic recovery, but millions of Americans are not sharing the benefits. The growing ranks of those without adequate food, jobs, shelter, or health care challenge our fundamental notions of right and wrong. *America Needs Human Rights* makes a powerful case that both the letter and spirit of universally recognized human rights are routinely violated in America by government policies that safeguard profits rather than people. Topics include understanding human rights, basic needs and human rights, the new American crisis, poverty in America, welfare reform, and human rights policy options and movement building.
