Negotiating nursing Jane Brooks,2018-05-17 Negotiating Nursing explores how the Queen Alexandra s Imperial Military Nursing Service Q A s salvaged their soldier patients within the sensitive gender negotiations of what should and could constitute nursing work and where that work could occur The book argues that the Q A s an entirely female force during the Second World War were essential to recovering men from the battlefield and for the war despite concerns about women s presence on the frontline Using personal testimony the book maps the developments in nurses work as they created a legitimate space for themselves in war zones and established their position as the expert at the bedside Yet despite the acknowledgement of nurses vital role in the medical service their position was gendered As the women of Britain were returned to the home post war it was the military nurses womanhood that stymied their considerable skills from being transferred to the new welfare state An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence *Cumulated Index Medicus* ,1992
