Reform In Nineteenth Century China:

Reform in Nineteenth-Century China John E. Schrecker, 2020-03-17 An edited volume consisting of 33 papers presented at Harvard University's East Asian Research Center's 1975 workshop on reform in China in the nineteenth century. The book is divided into eight parts each with a general thematic introduction, several essays on more specialized topics, and a summary of the discussion that took place at the conference. Reform in Nineteenth-century China Harvard University. East Asian Research Center, 1976. Proceedings of a workshop held under the auspices of the East Asian Research Center at Harvard University. July 7-18, 1975. **Radicalism and Education Reform in 20th-Century China** Suzanne

Pepper, 2000-07-10 The first comprehensive book to cover the whole sweep of twentieth-century Chinese education. **The Cambridge History of China** Roderick MacFarquhar, John King Fairbank, 1987. *Speaking of Profit* William T. Rowe, 2020-10-26

In the first half of the nineteenth century the Qing Empire faced a crisis. It was broadly perceived both inside and outside of government that the prosperous age of the eighteenth century was over. Bureaucratic corruption and malaise, population pressure and food shortages, ecological and infrastructural decay, domestic and frontier rebellion, adverse balances of trade, and eventually a previously inconceivable foreign threat from the West seemed to present hopelessly daunting challenges. This study uses the literati reformer Bao Shichen as a prism to understand contemporary perceptions of and proposed solutions to this general crisis. Though Bao only briefly and inconsequentially served in office himself, he was widely recognized as an expert on each of these matters, and his advice was regularly sought by reform-minded administrators. From examination of his thought on bureaucratic and fiscal restructuring, agricultural improvement, the grain tribute administration, the salt monopoly, monetary policy, and foreign relations, Bao emerges as a consistent advocate of the hard-nosed pursuit of material profit in the interests not only of the rural populace but also of the Chinese state and nation, anticipating the arguments of self-strengthening reformers later in the century. *Discovering History in China* Paul A. Cohen, 2010-04-29 Since its first publication, Paul A. Cohen's *Discovering History in China* has occupied a singular place in American China scholarship. Translated into three East Asian languages, the volume has become essential to the study of China from the early nineteenth century to today. Cohen critiques the work of leading postwar scholars and is especially adamant about not reading China through the lens of Western history. To this end, he uncovers the strong ethnocentric bias pervading the three major conceptual frameworks of American scholarship of the 1950s and 1960s: the impact response, modernization, and imperialism approaches. In place of these, Cohen favors a China-centered approach in which historians understand Chinese history on its own terms, paying close attention to Chinese historical trajectories and Chinese perceptions of their problems rather than a set of expectations derived from Western history. In an important new introduction, Cohen reflects on his fifty-year career as a historian of China and discusses major recent trends in the field. Although some of these developments challenge a narrowly conceived China-centered approach insofar as they enable more

balanced comparisons between China and the West and recast the Chinese and their history in more human less exotic terms they powerfully affirm the central thrust of Cohen s work China's Economic Future Joint Economic Committee Congress of the United States,2016-12-05 This is the latest Joint Economic Committee volume on the Chinese economy With the current state of US China relations and Hong Kong s accession in 1997 the study should provide policy makers in the USA with a useful tool in guiding economic policy toward China *Historical Dictionary of Modern China (1800-1949)* James Z. Gao,2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation *Translating Science* David Wright,2000 This fascinating richly illustrated account of the translation of Western science particularly chemistry into late nineteenth century China provides new insights both into the lives of the Chinese and foreign translators and into the processes and influences of science translation **Different Worlds of Discourse** Nanxiu Qian,Grace S. Fong,Richard Joseph Smith,2008 During the late Qing reform era 1895 1912 women for the first time in Chinese history emerged in public space in collective groups They assumed new social and educational roles and engaged in intense debates about the place of women in China s present and future These debates found expression in new media including periodicals and pictorials which not only harnessed the power of existing cultural forms but also encouraged experimentation with a variety of new literary genres and styles works increasingly produced by and for Chinese women *Different Worlds of Discourse* explores the reform period from three interrelated and comparatively neglected perspectives the construction of gender roles the development of literary genres and the emergence of new forms of print media
