worldview with its remarkable new insights into human behavior and motivation. It quickly became a benchmark for modernity in the twentieth century though its durability in the twenty first may now be in doubt. More than a hundred years after the publication of Freud's *The Interpretation of Dreams* we are no longer in thrall, says cultural historian Eli Zaretsky to the romance of psychotherapy and the authority of the analyst. Only now do we have enough perspective to assess the successes and shortcomings of psychoanalysis from its late Victorian Era beginnings to today's age of psychopharmacology. In *Secrets of the Soul* Zaretsky charts the divergent schools in the psychoanalytic community and how they evolved sometimes under pressure from sexism to feminism from homophobia to acceptance of diversity from social control to personal emancipation. From Freud to Zola Zaretsky tells the story of what may be the most intimate science of all.

Democracy in Exile Daniel Bessner, 2018-04-15 In *Democracy in Exile* Daniel Bessner explores the life of Hans Speier one of the most significant figures in the history of U.S. defense policy. Bessner traces Speier's intellectual development from Weimar Germany to the Cold War United States revealing how his European roots shaped the expert-driven approach to foreign policymaking that American elites institutionalized during and after World War II. A key figure in a transatlantic network of migr. policymakers and analysts Speier helped establish novel institutions such as the RAND Corporation that transformed how U.S. foreign policy was made. *Democracy in Exile* highlights how social scientists like Speier left academia to create a military intellectual complex that insulated American decision making from public opinion and that continues to shape U.S. defense policy today.

Yearbook of Transnational History Thomas Adam, 2021-05-03 The *Yearbook of Transnational History* is dedicated to disseminating pioneering research in the field of transnational history. This fourth volume is focused to the theme of exile. Authors from across the historical discipline provide insights into central aspects of research into the phenomenon of exile in the nineteenth and twentieth century. Both centuries have seen large numbers of people fleeing revolutions oppression persecution and extermination. This volume is the first publication to provide a comprehensive overview over exiles of various political and ethnic groups beginning with the French Revolution and ending with the transfer of Nazi scientists from post World War II Germany to the United States. This volume contains contributions about the refugees created by the French Revolution the Forty Eighters who were forced out of Germany after the failed Revolution of 1848-49 the anarchists Emma Goldman and Alexander Berkman Vietnamese anti colonial activists in France the exiles of Nazi Germany and the transfer of Nazi scientists such as Wernher von Braun to the United States after World War II.

Growing with Canada Paul Helmer, 2009-11-01 Based on years of detailed and extensive interviews and supplemented by a wide range of archival material *Growing with Canada* showcases the men and women who came to Canada and the roles they played in developing the country's musical culture. Paul Helmer shows that migr. were at the centre of the new musical milieu and uses the lively testimony of those involved to weave together the larger story of post war Canadian music performance production and education. By introducing the sounds and techniques of their homelands migr. artists were able

to overcome the dominating British presence in post secondary music education vastly expanding the role music played in universities while pioneering the performance and production of opera in Canada From British Columbia to Newfoundland they served as educators teachers and administrators as well as outstanding performers conductors composers music historians radio and television producers and benefactors
