Refusing Ignorance The Struggle To Educate Black Children In Albany New York 18161873:

A Critical Discourse Analysis of Family Literacy Practices Rebecca Rogers,2003-06-20 Ethnographic case study of a low income low literate family negotiating language and literacy explores discourse forces that impact their lives issues of power and identity current debates about connections between literacy and society *The Archaeology of Race in the Northeast* Christopher N. Matthews,Allison Manfra McGovern,2015-04-28 This collection of essays looks at evidence from both new sites and well known areas to explore race resistance and supremacy in the Northeast showing that such issues defined the social fabric of the Northeast as much as in the Deep South **New York State: Peoples, Places, and Priorities** Joanne Reitano,2024-04-30 Now in its second edition New York State Peoples Places and Priorities is an accessibly written book that explores the ever shifting dynamics of New York State history in a single volume The text is organized both chronologically and topically balancing political economic social and cultural history It discusses key figures groups movements and controversies upstate and downstate Each chapter is divided into teachable digestible sections that examine the major developments and challenges of that period with timelines and lists of online resources to aid student understanding The new edition brings New York State s history into the present with coverage of recent political and economic developments the Covid 19 pandemic immigration and global warming Throughout the book material was added concerning the American Revolution the Civil War women s rights and environmental justice Artwork maps charts and textboxes illuminate the state s rich history Analytical questions accompanying figures and texts encourage deeper engagement with the past Designed for undergraduates this book is a concise and updated account of New York State s history over the centuries with a wealth of resources to benefit students and instructors alike In Pursuit of Knowledge Kabria Baumgartner,2022-04 In Pursuit of Knowledge explores Black women and educational activism in Antebellum America **From the New Deal to the War on Schools** Daniel S. Moak,2022-05-10 In an era defined by political polarization both major U S parties have come to share a remarkably similar understanding of the education system as well as a set of punitive strategies for fixing it Combining an intellectual history of social policy with a sweeping history of the educational system Daniel S Moak looks beyond the rise of neoliberalism to find the origin of today s education woes in Great Society reforms In the wake of World War II a coalition of thinkers gained dominance in U S policymaking They identified educational opportunity as the ideal means of addressing racial and economic inequality by incorporating individuals into a free market economy The passage of the Elementary and Secondary Education Act ESEA in 1965 secured an expansive federal commitment to this goal However when social problems failed to improve the underlying logic led policymakers to hold schools responsible Moak documents how a vision of education as a panacea for society s flaws led us to turn away from redistributive economic policies and down the path to market based reforms No Child Left Behind mass school closures teacher layoffs and other policies that plague the public education system to this day *Schooling Citizens* Hilary J. Moss,2010-04-15 While white residents of antebellum Boston

and New Haven forcefully opposed the education of black residents their counterparts in slaveholding Baltimore did little to resist the establishment of African American schools Such discrepancies Hilary Moss argues suggest that white opposition to black education was not a foregone conclusion Through the comparative lenses of these three cities she shows why opposition erupted where it did across the United States during the same period that gave rise to public education As common schooling emerged in the 1830s providing white children of all classes and ethnicities with the opportunity to become full fledged citizens it redefined citizenship as synonymous with whiteness This link between school and American identity Moss argues increased white hostility to black education at the same time that it spurred African Americans to demand public schooling as a means of securing status as full and equal members of society Shedding new light on the efforts of black Americans to learn independently in the face of white attempts to withhold opportunity *Schooling Citizens* narrates a previously untold chapter in the thorny history of America s educational inequality
