Himalayan Dilemma Jack D. Ives,Bruno Messerli,2003-09-02 This is an important book that deserves to be read by everyone concerned with presenting major environmental issues Geography an essential text for policy makers and aid professionals as well as for students of environmental studies and international development It is indeed a book appropriate to the urgent and critical issues which it addresses Journal of Environmental Management *Traditional Ecological*

Knowledge of Resource Management in Asia Suresh Chand Rai,Prabuddh Kumar Mishra,2023-01-01 This book highlights the different ways of traditional ecological knowledge TEK practices that conserve natural resources sustainably Traditional ecological knowledge TEK along with synonymous or closely related terms like indigenous knowledge and native science originates in the literature on international development and adaptive management Against the backdrop of unprecedented global degradation and reduction in ecosystem services with impacts on human well being over the last 50 years there is a

growing interest in the role of traditional ecological knowledge TEK practices and systems of local communities in ensuring the sustainable utilization and management of resources In this context this book comprehensively analyzes the important aspects of natural resources in Asia This book covers a detailed study of the different aspects of natural resources It is divided into three sections which deal with varying dimensions of indigenous ecological knowledge of resource management in Asia The first part reflects upon the concept of traditional ecological knowledge the second part analyzes the systematic documentation of TEK practices and the third part deals with policy for governance This book critically describes and explains the indigenous knowledge about resource management This book is the ideal text for undergraduate postgraduate and research scholars in India and abroad This book is designed in such a manner that it covers all the aspects of natural resources It also helps the administrator and policymakers use indigenous knowledge in resource management The Anthropologist ,2007 **Geo-Resources** K.L. Shrivastava,Arun Kumar,2014-05-01 The book will be an everlasting and invaluable reference for academia industry and planners specialized in georesouce and for those who need updated information and current research in the field The book will also be equally useful for advance level students and research scholars throughout the world Mountain agriculture: Opportunities for harnessing Zero Hunger in Asia Food and Agriculture Organization of the United Nations,2019-08-07 Mountain food security and nutrition are core issues that can contribute positively to the achievement of the Sustainable Development Goals but paradoxically are often ignored in Zero Hunger and poverty reduction related agenda Under the overall leadership of Jos Graziano da Silva the Former Director General of FAO sustainable mountain agriculture development is set as a priority in Asia and the Pacific to effectively address this issue and assist Member Countries in tackling food insecurity and malnutrition in mountain regions This comprehensive publication is the first of its kind that focuses on the multidimensional status challenges opportunities and solutions of sustainable mountain agriculture development for Zero Hunger in Asia This publication is building on the International Workshop and Regional Expert Consultation on Mountain Agriculture Development and Food Security and Nutrition Governance held by FAO RAP and UIR in November 2018 Beijing in collaboration with partners from national governments national agriculture institutes universities international organizations and international research institutes The publication provides analysis with evidence on how mountain agriculture could contribute to satisfying all four dimensions of food security to transform food systems to be nutrition sensitive climate resilient economically viable and locally adaptable From this food system perspective the priority should be given to focus on specialty mountain product identification e g Future Smart Food production processing marketing and consumption which would effectively expose the potential of mountain agriculture to contribute to Zero Hunger and poverty reduction In addition eight Asian country case studies not only identify context specific challenges within biophysical technical policy socio economic and institutional dimensions **Himalaya, Environment, Resources & Development** Nirmal K. Sah,Shanker D. Bhatt,Ravindra K. Pande,1990 Journal of Social

Sciences ,2008 **Mining in the Himalayas** A.K. Soni,2016-09-19 Himalaya the world s most prominent mountain system of the world is a source of sustenance for the social cultural and economic development of population across different countries Unscientific small scale mining for harnessing reounrces including minerals has caused ecosystem damage Therefore an integrated and holistic approach to deal with the resource management is required This book makes a focussed effort to explain how mining in the Himalaya is practiced with discussions pertaining to critiques and lacunas of mining and environmental practices Status of mining practices in Himalaya is included along with the legal environmental repercussions of mining **Demography of the People of Jammu and Kashmir** Shampa Nag,M. K. Bhasin,2002 The relationship between human beings and their environment is always dynamic The assertion requires a systematic study of the changing relationship between the environment and the demographic adaptive and anthropological structure of human populations Here it needs to be emphasized that anthropodemographic studies of Himalayan region are few and we should develop an integrated approach for a better understanding of the dynamics of interaction between human beings and their environment The present study will contribute to an understanding of the ecological demographic and anthropological aspects of People of Jammu and Kashmir Needless to state the integrated perspective is undoubtedly superior to a piecemeal treatment for it offers sound insights into the working of various phenomena Moreover it helps us in bridging the gap between demography and anthropology Sustainable Management and Conservation of Environmental Resources in India Sumit Chakravarty,Vineeta I,Jahangeer A. Bhat,Munesh Kumar,Gopal Shukla,2024-11-22 The concept of natural resource sustainability has taken on new importance in today s world and community participation in the conservation of forest resources is essential for generating innovative sustainability solutions This new book looks at some of the important issues in sustainability and natural resource conservation including pollution agroforestry forest fire detection and monitoring sericulture based agroforestry soil quality preservation and restoration and remote sensing and machine learning for improved agriculture World Who Is Who and Does What in Environment and Conservation Nicholas Polunin,2013-11-05 Qaidu 1236 1301 one of the great rebels in the history of the Mongol Empire was the grandson of Ogedei the son Genghis Khan had chosen to be his heir This boof recounts the dynastic convolutions and power struggle leading up to his rebellion and subsequent events *Sacred Landscapes, Indigenous Knowledge, and Ethno-culture in Natural Resource Management* Suresh Chand Rai,Prabuddh Kumar Mishra,2024-09-20 This book examines the relationship between sacred landscapes indigenous knowledge ethno culture and natural resource management The volume contributes to the existing literature on landscape studies and cultural geography by examining local perceptions toward multiple aspects of sacred landscape and ethno culture under changing social and economic contexts with case studies from diverse cultural and geographical areas worldwide The book is useful for undergraduate and graduate students policymakers planners park managers and government officials to understand the needs for and natural resources of an area as well as the effect of park policies on

people to establish their mutually beneficial relationships Readers learn how to integrate the concept of sacred landscapes indigenous knowledge ethno culture and natural resources management to improve human resilience to global environmental change and to assess the proper development program in resource deprived areas
