Smith, André Moncourt, 2013-07-01 The long awaited Volume 2 of the first ever English language study of the Red Army Faction West Germany's most notorious urban guerillas covers the period immediately following the organization's near total decimation in 1977 This work includes the details of the guerilla's operations and its communiqués and texts from 1978 up until the 1984 offensive This was a period of regrouping and reorientation for the RAF with its previous focus on freeing its prisoners replaced by an anti NATO orientation This was in response to the emergence of a new radical youth movement in the Federal Republic the Autonomen and an attempt to renew its ties to the radical left The

possibilities and perils of an armed underground organization relating to the broader movement are examined and the RAF's approach is contrasted to the more fluid and flexible practice of the Revolutionary Cells. At the same time the history of the 2nd of June Movement (2JM) an eclectic guerilla group with its roots in West Berlin is also evaluated especially in light of the split that led to some 2JM members officially disbanding the organization and rallying to the RAF. Finally the RAF's relationship to the East German Stasi is examined as is the abortive attempt by West Germany's liberal intelligentsia to defuse the armed struggle during Gerhard Baum's tenure as Minister of the Interior. *Dancing with Imperialism* will be required reading for students of the First World guerilla, those with interest in the history of European protest movements and all who wish to understand the challenges of revolutionary struggle.

Desire and Infinity in W. S. Merwin's Poetry

Feng Dong, 2021-12-15. In the first monograph on W. S. Merwin to appear since his death in 2019, Feng Dong focuses on the dialectical movement of desire and infinity that ensouls the poet's entire oeuvre. His analysis foregrounds what Merwin calls the other side of despair, the opposite of humans' articulated personal and social agonies. Feng finds these presences in Merwin's evocations of what lingers on the edge of constantly updated socio-symbolic frameworks: surreal encounters, spiritual ecstasies and abyssal freedoms. By examining Merwin's lifelong engagement with psychic fantasies, anonymous holiness entities both natural and supernatural and ghostly ancestors, Feng uncovers a precarious relation with the unarticulated unrealized side of existence. Drawing on theories from Lacan, Lévinas and Heidegger, *Desire and Infinity* in W. S. Merwin's Poetry reads a metaphysical possibility into the poet's work at the intersection between contemporary poetics, philosophy and psychoanalysis.

Says She to Her Neighbour, What? ... By an Old-fashioned Englishman. [By Barbara Hofland.], 1812. *Toward a catholic Christianity* Michael H. McCarthy, 2017-12-22. Critical belonging has been an essential feature of Christianity since its origin, but the forms it assumes understandably differ with the specific challenges Christians rise to meet throughout history. During the past two thousand years these challenges have covered a broad spectrum: epistemic, moral, political, economic, religious and spiritual. In our global society all of these challenges seem to be occurring at once. Since no individual can meet all of them adequately, *Toward a catholic Christianity* tries to show how, by working collaboratively, the people of God can credibly meet them together. In this way the diversity and unity within the Roman Catholic community are explicitly acknowledged and affirmed. For if that community is to become authentically Christian, it will need to become more genuinely catholic.
