Around the World Robert Frothingham, 1925 Sailor Talk Mary K. Bercaw Edwards, 2021-03-01 This book investigates the highly engaging topic of the literary and cultural significance of sailor talk. The central argument is that sailor talk offers a way of rethinking the figure of the nineteenth century sailor and sailor writer whose language articulated the rich layered and complex culture of sailors in port and at sea. From this argument many other compelling threads emerge including questions relating to the seafarer's multifaceted identity, maritime labor, questions of performativity, the ship as theater, the varied and multiple registers of sailor talk and the foundational role of maritime language in the lives and works of Herman Melville, Joseph Conrad and Jack London. The book also includes nods to James Fenimore Cooper, Rudyard Kipling and Robert Louis Stevenson. Meticulous scholarly research underpins the close readings of literary texts and the scrupulously detailed biographical accounts of three major sailor writers. The author's own lived experience as a seafarer adds a refreshingly materialist dimension to the subtle literary readings. The book represents a valuable addition to a growing scholarly and political interest in the sea and sea literature. By taking the sailor's viewpoint and listening to sailors' voices, the book also marks a clear intervention in this developing field. **Henry James: The Mature Master** Sheldon M.

Novick, 2020-04-14 The New York Times compared Sheldon M. Novick's *Henry James: The Young Master* to a movie of James's life as it unfolds moment to moment, lending the book a powerful immediacy. Now in *Henry James: The Mature Master*, Novick completes his super-revelatory two-volume account of one of the world's most gifted and least understood authors and of a vanished world of aristocrats and commoners. Using hundreds of letters only recently made available and taking a fresh look at primary materials, Novick reveals a man utterly unlike the passive, repressed and privileged observer painted by other biographers. Henry James is seen anew as a passionate and engaged man of his times, driven to achieve greatness and fame, drawn to the company of other men able to write with sensitivity about women as he shared their experiences of love and family responsibility. James, age thirty-eight as the volume begins, basking in the success of his first major novel *The Portrait of a Lady*, is a literary lion in danger of being submerged by celebrity. As his finances ebb and flow, he turns to the more lucrative world of the stage, with far more success than he has generally been credited with. Ironically, while struggling to excel in the theatre, James writes such prose masterpieces as *The Wings of the Dove* and *The Golden Bowl*. Through an astonishingly prolific life, James still finds time for profound friendships and intense rivalries. *Henry James: The Mature Master* features vivid new portraits of James's famous peers including Edith Wharton, Oscar Wilde and Robert Louis Stevenson, his close and loving siblings Alice and William, and the many compelling young men among them, Hugh Walpole and Howard Sturgis, with whom James exchanges professions of love and among whom he thrives. We see a master converting the materials of an active life into great art. Here too, as one century ends and another begins, is James's participation in the public events of his native America and adopted England. As the still feudal European world is shaken by democracy and as

America sees itself endangered by a wave of Jewish and Italian immigrants a troubled James wrestles with his own racial prejudices and his desire for justice With the coming of world war all other considerations are set aside and James enlists in the cause of civilization leaving his greatest final works unwritten Hailed as a genius and a warm and charitable man and derided by enemies as false effeminate and self infatuated Henry James emerges here as a major and complex figure a determined and ambitious artist who was planning a new novel even on his deathbed In Henry James The Mature Master he is at last seen in full along with its predecessor volume this book is bound to become the definitive biography NOTE This edition does not include a photo insert

Sons of the Empire Robert Macdonald,2011-11-01 In Sons of the Empire Robert MacDonald explores popular ideas and myths in Edwardian Britain their use by Baden Powell and their influence on

the Boy Scout movement In particular he analyses the model of masculinity provided by the imperial frontier the view that life in younger far flung parts of the empire was stronger less degenerate than in Britain The stereotypical adventurer the frontiersman provided an alternative ethic to British society The best known example of it at the time was Baden Powell himself a war scout the Hero of Mafeking in the South African war and one of the first cult heroes to be created by the modern media When Baden Powell founded the Boy Scouts in 1908 he used both the power of the frontier myth and his own legend as a hero to galvanize the movement The glamour of war scouting was hard to resist its adventures a seductive invitation to the first recruits But Baden Powell had a serious educational program in mind Boy Scouts were to be trained in good citizenship MacDonald documents his study with a wide range of contemporary sources from newspapers to military memoirs Exploring the genesis of an imperial institution through its own texts he brings new insight into the Edwardian age

Modern Metrical Technique George R. Stewart,1922 Language in Literature Geoffrey Leech,2014-07-15 Over a period of over forty years Geoffrey Leech has made notable contributions to the field of literary stylistics using the interplay between linguistic form and literary function as a key to the mystery of how a text comes to be invested with artistic potential In this book seven earlier papers and articles read previously only by a restricted audience have been brought together with four new chapters the whole volume showing a continuity of approach across a period when all too often literary and linguistic studies have appeared to drift further apart Leech sets the concept of foregrounding also known as defamiliarization at the heart of the interplay between form and interpretation Through practical and insightful examination of how poems plays and prose works produce special meaning he counteracts the flight from the text that has characterized thinking about language and literature in the last thirty years when the response of the reader rather than the characteristics and meaning potential of the text itself have been given undue prominence The book provides an enlightening analysis of well known as well as less well known texts of great writers of the past including Keats Shelley Samuel Johnson Shaw Dylan Thomas and Virginia Woolf
