Looking Out Perspectives On Dance And Criticism In A Multicultural World:

Looking Out David Gere, 1995 Looking Out is the first collection of writings to address the impact of multiculturalism on the dance world. It is unique in offering various perspectives enlisting leading dance critics, performers, choreographers, and academics in a wide-ranging discussion of how dance from around the world can be better understood. Inspired by a groundbreaking 1990 conference of the Dance Critics Association, the book consists of a series of essays each addressing a different facet of the problems and possibilities of multiculturalism.

Salsa and Its Transnational Moves Sheenagh Pietrobruno, 2006-01-01 Salsa and Its Transnational Moves presents a critical analysis of salsa dancing in Quebec, Canada. Pulling from such varied fields as anthropology, cultural studies, gender studies, and popular music studies, Pietrobruno examines the local and transnational dimensions underlying the dissemination of salsa within a North American metropolis.

Moving Together Allana C. Lindgren, Batia Boe Stolar, Clara Sacchetti, 2021-05-11 Moving Together: Dance and Pluralism in Canada explores how dance intersects with the shifting concerns of pluralism in a variety of racial and ethnic communities across Canada. Focusing on the twentieth and twenty-first centuries, contributors examine a broad range of dance styles used to promote diversity and intercultural collaborations. Examples include Fijian dance in Vancouver, Japanese dance in Lethbridge, Danish, Chinese, Kathak, and Flamenco dance in Toronto, African and European contemporary dance styles in Montreal, and Ukrainian dance in Cape Breton. Interviews with Indigenous and Middle Eastern dance artists, along with an artist statement by a Bharata Natyam and contemporary dance choreographer, provide valuable artist perspectives. Contributors offer strategies to decolonize dance education and also challenge longstanding critiques of multiculturalism. Moving Together demonstrates that dance is at the cutting edge of rethinking the contours of race and ethnicity in Canada and is necessary reading for scholars, students, dance artists, and audiences and everyone interested in thinking about the future of racial and ethnic pluralism in Canada.

Choreographing Identities Anthony Shay, 2014-01-10 Throughout its history, the United States has become a new home for thousands of immigrants, all of whom have brought their own traditions and expressions of ethnicity. Not least among these customs are folk dances, which over time have become visual representations of cultural identity. Naturally, however, these dances have not existed in a vacuum. They have changed in part as a response to ever-changing social identities and in part as a reaction to deliberate manipulations by those within as well as outside of a particular culture. Compiled in great part from the author's own personal dance experience, this volume looks at how various cultures use dance as a visual representation of their identity and how traditional dances change over time. It discusses several parallel layers of dance.

dances performed at intra cultural social occasions dances used for representation or presentation and folk dance performances Individual chapters center on various immigrant cultures Chiefly the work focuses on cultural representation and how it is sometimes manipulated Key folk dance festivals in the United States and Canada are reviewed Interviews with dancers teachers and others offer a first hand perspective An extensive bibliography encompasses concert programs and reviews as well as broader scholarly sources Engaging Bodies Ann Cooper Albright, 2013-12-03 Winner of the Selma Jeanne Cohen Prize in Dance Aesthetics 2014 For twenty five years Ann Cooper Albright has been exploring the intersection of cultural representation and somatic identity in dance For Albright dancing is a physical inquiry a way of experiencing and participating in the world and her writing reflects an interdisciplinary approach to seeing and thinking about dance In her engagement as both a dancer and a scholar Albright draws on her kinesthetic sensibilities as well as her intellectual knowledge to articulate how movement creates meaning Throughout Engaging Bodies movement and ideas lean on one another to produce a critical theory anchored in the material reality of dancing bodies This blend of cultural theory and personal circumstance will be useful and inspiring for emerging scholars and dancers looking for a model of writing about dance that thrives on the interconnectedness of watching and doing gesture and thought Hardcover is un jacketed
