University of Wyoming in August 1985 to honor Gail Young on his seventieth birthday which actually took place on October 3 1985 and on the occasion of his retirement Nothing can seem more natural to a mathematician in this country than to honor Gail Young Gail embodies all the qualities that a mathematician should possess He is an active and effective research mathematician having written over sixty papers in topology n dimensional analysis complex variables and miscellanea He is an outstanding expositor as his fine book *Topology* written with J G Hocking Addison Wesley 1961 amply demonstrates He has a superlative record in public office of outstanding unstinting service to the mathematical community and to the cause of education But what makes Gail unique and special is that throughout all aspects of his distinguished career he has emphasized human values in everything he has done In touching the lives of so many of us he has advanced the entire profession Deservedly he has innumerable friends in the mathematical community the academic community and beyond

Programming Methodology David Gries, 2012-12-06 This volume is being published for two reasons The first is to present a collection of previously published articles on the subject of programming methodology that have helped define the field and give it direction It is hoped that the scientist in the field will find the volume useful as a reference while the scientist in neighboring fields will find it useful in seriously acquainting himself with important ideas in programming methodology The advanced student can also study it either in a course or by himself in order to learn significant material that may not appear in texts for some time The second reason for this volume is to make public the nature and work on programming methodology of IFIP Working Group 2.3 hereafter called WG2.3 IFIP stands for International Federation for Information Processing WG2.3 is one of many IFIP Working Groups that have been established to provide international forums for discussion of ideas in various areas Generally these groups publish proceedings of some of their meetings and occasionally they sponsor a larger conference that persons outside a group can attend WG2.3 has been something of a maverick in this respect From the beginning the group has shunned paperwork reports meetings and the like This has meant less publicity for IFIP and WG2.3 but on the other hand it has meant that meetings could be devoted almost wholly to scientific discussions
