New Directions in Sociology David C. Thorns, 1976 **Changing Theories** Black Hawk Hancock, Roberta Garner, 2014 **State in Modern Society** Roger King, 1986-07-04 This is an up to date textbook which takes fully into account recent developments in political sociology Taking as its starting point the fragmentation of the discipline it covers a wide range of new issues and debates as well as the more traditional concerns of the subject Sociological Theory and Educational Reality Alan Barcan, 1993 An examination of the major classical sociological theories relevant to education and of the rise and decline of the new sociology of education Author also discusses the vexed questions of equality of opportunity the relationship between school and society the growth of educational bureaucracies and the roles of state church and family in education in Australia since 1949 Includes endnotes tables and index Department of Defense Authorization for Appropriations for Fiscal Year 2001 and the Future Years Defense Program: February 24, March 2, 9, 2000 United States. Congress. Senate. Committee on Armed Services, 1959 *New Directions in Sociological Theory* Paul Filmer, 1973 **The Curriculum** Landon E. Beyer, Michael W. Apple, 1988-01-01 This book examines six major areas of theory and practice that exemplify the field of curriculum the historical dimensions of the field planning and organizing the curricula for the public schools the problem of selecting appropriate content for inclusion in the curriculum the effect of the workplace of teaching on curriculum theory and development technology and curriculum and problems of evaluation Multiple perspectives are included within each of these major areas and the various authors help to disentangle both the political and ethical differences among competing perspectives Beyer and Apple s book extends the scope of recent critically oriented work in the curriculum field clarifying both the conceptual and practical dimensions of curriculum decision making Investigating the Teacher's Life and Work Ivor F. Goodson, 2008-01-01 Investigating the Teacher s Life and Work attempts to bring together the methodological and substantive aspects of studying the teacher s life and work Some of the chapters in the book provide a how to do approach for those wishing to study the teacher s life and work employing a life history method whilst other chapters provide the kind of substantive and generic findings which might be anticipated when conducting life history work The focus on professional life and work has been growing rapidly in the last two or three decades There are a number of

reasons for this Firstly there is a methodological impulse many new studies are adopting a life history approach The life history tradition aims to understand the interface between people s life and their work It also seeks to explore the historical context and the socio political circumstances in which people s life and work is located A further major reason for investigating the teacher s life and work at the moment is the huge range of restructuring initiatives taking place throughout the educational world There is a kind of world movement to restructure education and health certainly in most Western countries Generally this takes the form of the introduction of the three T s targets tests and tables and the increasing accountability and performativity regimes associated with these new forms of evaluation Significantly these initiatives have been introduced at governmental level in most countries with the minimum of consultation with teacher workforces As a result there is growing evidence of a clash between professional life and work missions and the restructuring initiatives which aim to transform these missions Perhaps the best way to explore this increasingly acute clash of values is through the investigation of professional life and work Investigating the Teacher s Life and Work aims to bring together the methodological and substantive approaches and to show how this kind of study can increase our understanding of the interface between government intentions and teacher s beliefs and motives
