**Kassandra and the Censors** Karen Van Dyck, 2018-05-31 In this pioneering study of contemporary Greek poetry Karen Van Dyck investigates modernist and postmodernist poetics at the edge of Europe She traces the influential role of Greek women writers back to the sexual politics of censorship under the dictatorship 1967 1974 Reading the effects of censorship in cartoons the dictator's speeches the poetry of the Nobel Laureate George Seferis and the younger generation of poets she shows how women poets use strategies which although initiated in response to the regime's press law prove useful in articulating a feminist critique In poetry collections by Rhea Galanaki Jenny Mastoraki and Maria Laina among others she analyzes how the censors' tactics for stabilizing signification are redeployed to disrupt fixed meanings and gender roles As much a literary analysis of culture as a cultural analysis of literature her book explores how censorship consumerism and feminism influence contemporary Greek women's poetry as well as how the resistance to clarity in this poetry trains readers to rethink these cultural practices Only with greater attention to the cultural and formal specificity of writing Van Dyck argues is it possible to theorize the lessons of censorship and women's writing

**The Oxford Handbook of Contemporary British and Irish Poetry** Peter Robinson, 2013-09-26 The Oxford Handbook of Contemporary British and Irish Poetry offers thirty eight chapters of ground breaking research that form a collaborative guide to the many groupings and movements the locations and styles as well as concerns aesthetic political cultural and ethical that have helped shape contemporary poetry in Britain and Ireland The book

s introduction offers an anthropological participant observer approach to its variously conflicted subjects while exploring the limits and openness of the contemporary as a shifting and never wholly knowable category The five ensuing sections explore a history of the period s poetic movements its engagement with form technique and the other arts its association with particular locations and places its connection with and difference from poetry in other parts of the world and its circling around such ethical issues as whether poetry can perform actions in the world can atone redress or repair and how its significance is inseparable from acts of evaluation in both poets and readers Though the book is not structured to feature chapters on authors thought to be canonical on the principle that contemporary writers are by definition not yet canonical the volume contains commentary on many prominent poets as well as finding space for its contributors enthusiasms for numerous less familiar figures It has been organized to be read from cover to cover as an ever deepening exploration of a complex field to be read in one or more of its five thematically structured sections or indeed to be read by picking out single chapters or discussions of poets that particularly interest its individual readers
