modern university is being transformed in an increasingly global economy of higher education where luxury is replacing access. More than just a sign of corporatization and privatization, academic brands provide a unique window on the university's concerns and struggles with conveying excellence and reputation in a competitive landscape organized by rankings while also capitalizing on its brand to generate revenue when state support dwindles. This multidisciplinary volume addresses topics including the uniqueness of academic brands, their role in the global brand economy of distinction and their vulnerability to problematic social and political associations. By focusing on brands, the volume analyzes the tensions between the university's traditional commitment to public interest values, education research and the production of knowledge and its increasingly managerial culture framed by corporate private values. Available as Open Access on Cambridge Core.

Brand Mascots Stephen Brown, Sharon Ponsonby-McCabe, 2014-06-27. Tony the Tiger, The Pillsbury Doughboy, The Michelin Man, The Playboy bunny. The list of brand mascots, spokes characters, totems and logos goes on and on and on. Mascots are one of the most widespread modes of marketing communication and one of the longest established. Yet despite their ubiquity and utility, brand mascots seem to be held in comparatively low esteem by the corporate cognoscenti. This collection, the first of its kind, raises brand mascots standing both in an academic sense and from a managerial perspective. Featuring case studies and empirical analyses from around the world, here Hello Kitty, there Aleksandr Orlov, beyond that Angry Birds, the book presents the latest thinking on beast-based brands broadly defined. Entirely qualitative in content, it represents a readable, reliable resource for marketing academics, marketing managers, marketing students and the consumer research community. It should also prove of interest to scholars in adjacent fields such as cultural studies, media studies, organisation studies, anthropology, sociology, ethology and zoology.

Logos Redesigned David E. Carter, 2005-07-05. A company's logo is the most important component of its brand identity. So why would a company ever change its logo? Because things change, the competition changes, the times change, even the company itself. And the company whose logo does not reflect present realities is at a marketing disadvantage. In this comprehensively illustrated compendium, David E. Carter shows 200 corporate logo changes and then discusses each. You'll see everything from minor evolutionary changes to complete revolutionary changes where the old logo has been discarded and a totally new one designed. Examples of the ultimate logo changes where a new corporate name has been adopted are also included in this book. Packed with case studies on logo redesign, it features companies both large and small and from a diverse array of industries: global firms such as Apple Computer, UPS and Time Warner as well as small firms who compete no less vigorously in their own arenas. This essential resource will be invaluable to designers, ad creatives, marketing people and corporate executives whose task it is to keep their firms competitive in this changing world.
