Education, 2001-04 **Knowledge and Control: New Directions for the Sociology of Education** Michael F. D.

Young, 1971 Knowledge and Control offers a new approach to the sociology of education by examining educational problems from the perspective of the sociology of knowledge. Thus education itself is treated as a social category, a set of meanings which may be shared or imposed and so open to empirical investigation. By focusing on the social organization of knowledge, this book shows how the sociology of education can contribute to the fundamental issues concerning the nature and scope of sociological enquiry. Michael F. D. Young obtained a B.A. in Natural Sciences at Cambridge University and spent a year in the chemical industry before teaching sciences in London secondary schools for 6 years. During this time he studied part-time for the University of London B.Sc. in Sociology at Regent Street Polytechnic. Following a year at the University of Essex during which he obtained an M.A. in Sociology, Michael Young joined the department of sociology of Education at the University of London Institute of Education in 1967.
