New Directions In Geographical Fieldwork:

Fieldwork in Geography: Reflections, Perspectives and Actions Rod Gerber, Goh Kim Chuan, 2013-03-14

Geographers regard fieldwork as a vital instrument for understanding our world through direct experience for gathering basic data about this world and as a fundamental method for enacting geographical education. The range of international geography and educational experts who contributed to this volume has demonstrated that the concept of fieldwork has a considerable history in the field of geography. They have demonstrated that the theoretical aspects of fieldwork have been interpreted differently in regions around the world but the importance of fieldwork remains strong globally. A fresh look at the pedagogic implications for fieldwork in formal education offers ideas both for promoting it in geographical education and for maintaining its place in the geography curriculum. Audience: Forward looking geographers and educators now recognise that alternative strategies especially those involving the use of information technology should be developed to reaffirm the centrality of fieldwork in geographical and wider education.

New Directions in Geographical Fieldwork David Job, 1999. *New Directions in Geographical Fieldwork* is for advanced level and undergraduate students. It provides a succinct review of recent changes in geographical and environmental thinking and it considers their influence on the focus of practical geographical investigations and on how the findings are used. New developments in learning through field experience are outlined illustrating the shift from traditional field work methods through quantitative methods to more recent humanistic approaches. Topics covered include considering range from the importance of social values and the opportunities available for extending the outcomes of fieldwork into environmental action.

Teaching Geography in Secondary Schools Margaret Smith, 2005-06-29. A companion to *Aspects of Teaching Secondary Geography*. *Teaching Geography in the Secondary School* A Reader brings together a wide range of key writings that look at central issues, debates and ideas surrounding geography education today. It encourages students to reflect critically upon the issues in order to develop their understanding of these issues and to consider the implications for their classroom practice.

School Subject Teaching Ashley Kent, 2013-12-19. Covering each of the core curriculum areas in turn, this is a reference on school subject teaching. The authors assess the development of teaching within each subject area since the 1944 Education Act up to the year 2000. Future challenges are also explored.

Geography, Education and the Future Graham Butt, 2011-03-17

Aspects of Teaching Secondary Geography Margaret Smith, 2003-09-02. This book provides a practical illustration of the skills, knowledge and understanding required to teach in the secondary classroom. As well as discussing concepts and ideas, the book gives a critical examination of some of the key issues and will encourage the reader to engage with the ideas and consider their views and beliefs. It is an invaluable resource for those who are learning to teach or for those teachers who wish to reflect on their teaching practice.

Environmental and Geographical Education for Sustainability Zijian Li, Michael Williams, 2006. Geography, environment, sustainability, culture and education standing alone or in any combination provide the

ingredients for a variety of stews They are all difficult to define and they generate endless debates for theoreticians and practitioners about their meaning and significance The editors have divided the chapters that follow into two parts in an effort to unit these diverse disciplines Part 1 is concerned with cultural foundations and curriculum issues related to geographical and environmental education for sustainability Part 2 comprises a series of chapters presenting education for sustainability in the contexts of national cultures

Teaching Human Geography Erin Hogan Fouberg, Janet Stuhrenberg Smith, 2023-03-02 This timely book examines advances in teaching and learning at undergraduate level from the disciplines of geography education neuroscience and learning science Connecting these disciplines the chapters integrate research on how students learn and explain how to teach students to think geographically and develop a deeper understanding of their world

Innovation in Geographical Education ,1996 **Reflective Practice in Geography Teaching** Ashley Kent, 2000-12-22 Highly Commended Geographical Association Award 2002 Has been judged as likely to make a significant contribution to geography This book provides a comprehensive overview of contemporary thought and practice in teaching geography It is designed to support continuing professional development and reflective practice in geography education by encouraging a critical understanding of the literature and concepts stimulating teachers to continue with personal and professional development and providing professionally relevant knowledge understanding skills and values Drawn from a wide range of eminent geographers and experienced practitioners the authors cover progress in geography changing viewpoints the geography curriculum development planning and issues and research and geography teaching why and how research matters This book is essential reading and a valuable resource for student and practising teachers of geography at secondary school level as well as for those responsible for continuing professional development and subject leadership
