making love with Marion Cotillard who is playacting the role Miranda Tate But if we look at the history of cinema and consider contemporary reviews from the early days of the medium we see that people thought precisely in this way about early film They spoke of film as no more than documentary recordings of actors performing on set In an innovative combination of philosophical aesthetics and new cinema history Mario Slugan investigates how our default imaginative engagement with film changed over the first two decades of cinema It addresses not only the importance of imagination for the understanding of early cinema but also contributes to our understanding of what it means for a representational medium to produce fictions Specifically Slugan argues that cinema provides a better model for understanding fiction than literature
