America's War against Global Jihad William R. Nester, 2018-03-06 A specter haunts America the specter of Global Jihad Islamic Holy War This specter was never more horrific than on September 11 2001 when nineteen fanatics hijacked four jetliners and used them as guided missiles to destroy the twin World Trade Towers damage the Pentagon murder nearly 3 000 people and cause as much as several hundred billion dollars worth of direct and indirect damage to New York City and the national economy But Jihadists have periodically attacked Americans ever since November 1979 when mobs shouting death to America overran the American embassy in Tehran and held 52 officials hostage for 444 days President George W Bush responded to the September 11 atrocities by declaring a global war on terror Now in its second decade that war has cost the United States thousands of lives and trillions of dollars Americans are haunted by horrific televised images from across a swath of the Muslim world of bomb blasted cities hundreds of slaughtered bodies thousands of refugees huddled in squalid camps and American journalists in orange jump suits kneeling in the desert before the black robed and masked men who will behead them Americans increasingly question whether the global war on terror has been worth those costs for their own nation and the lands where it is fought This book analyzes America's crusade against Jihadism The key related questions it addresses are these Looking back what were the successes and failures of Washington's counter Jihadist strategy before and after September 11 Looking ahead should Americans stay the course or cut their losses in Iraq Afghanistan and elsewhere Was the catastrophic September 11 attack a one time event or could its equivalent or worse in death and destruction happen again Renowned Harvard professor Samuel Huntington asserted that The underlying problem for the West is not Islamic fundamentalism it is Islam a different civilization whose people are convinced of the superiority of their culture and are obsessed with the inferiority of their power Is that true Just what of Muhammad's words and deeds if any justifies the barbarism of al Qaeda Islamic State and other Jihadists Finally just how corporeal is that specter of global Jihad to the United States A startling surprise awaits the reader in the final chapter as acclaimed expert William Nester weighs the

specter of global Jihad against an array of other national security threats **Losing Bin Laden** Richard Minter, 2013-02-05
 Journalist Rich Minter uses his unparalleled access to sources and stories throughout the Middle East Africa and the United States He paints a devastating portrait of how close the U S military was to killing bin Laden on multiple occasions and how each time Clinton dropped the ball and allowed bin Laden to grow stronger and more dangerous *Inside Al Qaeda* Rohan Gunaratna, 2002-06-27

 Sudan s conflicts are rooted in the creation of the state During Sudan s Anglo Egyptian colonial rule the Arabic Muslim north and Christian and animist south were ruled as two distinct entities The north was modernized but the south neglected creating parallel entities which overlooked the diversity and historical interrelations between the areas Sudan s conflicts are rooted in the creation of the state A 1947 policy change to unify them meant that

when the country was granted independence in 1956 Sudan was left with a heavily unified and centralized state ruled from the north The south which already had social and political grievances feared it would be dominated by the Arabic and Islamist North Promises to create a federal system were soon broken In 1955 tensions flared up and led to the outbreak of the first Sudanese civil war The conflict which featured successive coups and regime changes ended with the 1972 Addis Abeba agreement and another promise of political autonomy for the South Disputes over the discovery of oil in the south in 1979 together with President Nimeiry s decision to implement Islamic Sharia law for the whole of Sudan and end southern autonomy led to a new surge in civil violence in 1983 Charity website www.adongor.org Name of the Foundation Adongor Foundation Founded by Martin Bol Deng Aleu MA in 2018 Founded on 2018 and officially with the ministry of justice in Poland and can have activities and branches around the global And Euro African Foundation founded by Mr Adil Abdel Aati and is a charity a working in partnership with ADONGOR FOUNDATION 100% of proceeds from the sale of this book will be donated to humanitarian efforts and projects of ADONGOR and Euro African Foundations NGOs registered in Poland working for African people at home and in Diaspora **Understanding Terrorism** Gus Martin,2020-07-17 Understanding Terrorism Challenges Perspectives and Issues offers a comprehensive interdisciplinary exploration of domestic and international terrorism that helps students develop the knowledge and skills needed to critically assess the underlying causes of modern terrorist violence The Seventh Edition includes new or expanded discussions of critical topics in terrorism such as the evolution of right wing extremism in Western countries as well as analysis of recent events and updated terrorist tactics weapons and methods Included with this title The password protected Instructor Resource Site formally known as SAGE Edge offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides

Drugs, Oil, and War Peter Dale Scott,2004-01-01 Peter Dale Scott s brilliantly researched tour de force illuminates the underlying forces that drive U S global policy from Vietnam to Colombia and now to Afghanistan and Iraq He brings to light the intertwined patterns of drugs oil politics and intelligence networks that have been so central to the larger workings of U S intervention and escalation in Third World countries through alliances with drug trafficking proxies This strategy was originally developed in the late 1940s to contain communist China it has since been used to secure control over foreign petroleum resources The result has been a staggering increase in the global drug traffic and the mafias associated with it_a problem that will worsen until there is a change in policy Scott argues that covert operations almost always outlast the specific purpose for which they were designed Instead they grow and become part of a hostile constellation of forces The author terms this phenomenon parapolitics_the exercise of power by covert means_which tends to metastasize into deep politics_the interplay of unacknowledged forces that spin out of the control of the original policy initiators We must recognize that U S influence is grounded not just in military and economic superiority Scott contends but also in so called soft power We need a soft politics of persuasion and nonviolence especially as America is embroiled in yet another disastrous

intervention this time in Iraq
