Old Buildings, New Ideas Françoise Astorg Bollack,2023-12-18 Some architectural transformations are modest some are revolutionary Shining a light on the hidden side of the accepted narrative of the history of architecture this book explores works which transform existing buildings to build a way forward through adaptations additions and visual shifts Examining 30 buildings across Europe North America and South America spanning from the early Middle Ages to the end of the 20th century it demonstrates the creative possibilities of working with existing buildings The book reveals how formal inventions can shape architecture and our environment over time in a built world constantly in a state of becoming As we face a climate emergency it taps into our deep cultural knowledge about the inventive use and re use of buildings Generously illustrated with architectural plans and over 300 colour images it provides an alternative to the dominant view which sees conservation and preservation of historic buildings as a 20th century creation Bringing New Life to Old Buildings in Mineral, Virginia

Mary Porzio,2005 Old Buildings, New Forms Françoise Bollack,2013-11-12 It is clear that working with historic structures is both more environmentally sustainable and cost effective than new architecture and construction and many believe that the best design occurs at the intersection of old and new Fran oise Astorg Bollack presents 28 examples gathered in the United States and throughout Europe and the Middle East Some are well known Mass MOCA Market Santa Caterina in Barcelona Neues Museum in Berlin and others are almost anonymous But all demonstrate a unique and appropriate solution to the problem of adapting historic structures to contemporary uses This survey of contemporary additions to older buildings is an essential addition to the architectural literature I have always loved old buildings An old building is not an obstacle but instead a foundation for continued action Designing with them is an exhilarating enterprise adding to them grafting inserting knitting new pieces into the existing built fabric is endlessly stimulating Fran oise Astorg Bollack *The Architecture Annual 2006-2007. Delft University of Technology* ,2008 The themes of this Arcjitecture Annual

focuses on how the materials design construction and running of a building can affect the environment **Planning and the Heritage** Michael Ross,2003-09-02 This book will guide the planner developer architect or conservationist through the UK heritage legislation explaining the policy and procedures which govern the protection of historic buildings **Public Buildings Cooperative Use Act of 1975** United States. Congress. Senate. Committee on Public Works. Subcommittee on Public Buildings and Grounds,1975 **Preservation Briefs 1-14** ,1975 *Public Buildings Cooperative Use Act of 1975,*

Hearing Before the Subcommittee on Buildings and Grounds ..., 94-1, May 19, 1975 United States. Congress. Senate. Committee on Public Works, 1975

Candide 4 Axel Sowa, 2011 Candide is a peer reviewed journal dedicated to exploring the culture of knowledge specific to architecture It is released twice a year in English and German Each issue of Candide is made up of five distinct sections This frame work responds to the diversity of architectural knowledge being produced while challenging authors from all disciplines to test a variety of genres in order to write about and represent architecture Essay provides a forum for discussion of architectural knowledge including both fundamental research into and speculative arguments on its nature Analysis allows for in depth examination of built form how can the knowledge embodied in buildings be retrospectively extracted and creatively re used Project is directed at architects who see design as a theoretical tool how can a specific design proposal become a model of thought Encounters gives access to the personal knowledge of renowned unjustly forgotten or entirely unknown protagonists of architecture Fiction reflects the editors conviction that sometimes the imaginary may reveal more about architectural knowledge than science

Preservation Briefs, 1975 **Old-House Journal**, 2009-07 Old House Journal is the original magazine devoted to restoring and preserving old houses For more than 35 years our mission has been to help old house owners repair restore update and decorate buildings of every age and architectural style Each issue explores hands on restoration techniques practical architectural guidelines historical overviews and homeowner stories all in a trusted authoritative voice

Preservation Briefs, 1987-11 Provides guidance to owners architects and developers of historic buildings with information on cleaning and waterproof coating for historic masonry repointing mortar joints conserving energy roofing for historic buildings historic adobe buildings dangers of abrasive cleaning historic glazed architectural terra cotta aluminum and vinyl siding on wood frame buildings repairing historic wooden windows exterior paint problems on historic woodwork and rehabilitating historic storefronts

New Design for Old Buildings Roger Hunt, Iain Boyd, 2019-07-25 This book is a celebration of good new design for old buildings and the SPAB philosophy that good new architecture can sit happily alongside old and is preferable to pastiche Endorsing the value of architects who are engaged to work in the historic environment this book explores design materials and technical considerations in creating the best low energy ecological and sustainable retrofits It has never been more important to understand how old buildings can be adapted to make them useful and sustainable in the future Showcasing the best examples of imaginative design and best practice this book illustrates how old buildings can be made sustainable through the best new design and puts these design exemplars into a historical and philosophical context With illustrative case studies and interviews throughout including formal buildings churches domestic buildings commercial industrial and agricultural from all periods in the UK *New Design for Old Buildings* provides essential guidance on good imaginative new design for old buildings

A New Life Aydin Tözeren, 1997 *A New Life* is a collection of essays and true stories about gay men The portrayal of gay life presented in the book captures the intricate undercurrents in the age of AIDS the anguish disillusion and disappointment

of HIV positive youth electricity between an HIV positive man and his negative lover the journey of a mother who lost her son to AIDS and why it is so difficult to be gay and proud in the inner city The principal characters of the book the young and old Black and White HIV positive and HIV negative reflect the diversity of the gay community and the varying degrees to which gay men have been affected by HIV Essays included in the book provide a background for the personal accounts of gay life Large scale information presented in these essays were derived from the data collected by the Multicenter AIDS Cohort Study the largest sexual and social behavior survey ever funded by the federal government The book shows how easy it is at present for a young gay man to become first a victim and subsequently endanger the lives of his fellow men The seemingly complex picture of recent HIV infections would become simpler if we were to consider the link between sexual ethics and the transmission of HIV Could we interpret an HIV negative partner s willingness to engage in unprotected sex as acceptance of consequences If a man who might be carrying HIV does not use a condom during sexual intercourse with a partner who might be HIV negative is he being unreasonably negligent It appears that group values that emphasize protecting sex partners from HIV may be our best weapon against the spread of AIDS to the next generation of gay men A New Life reveals insights into the impact of HIV on the relationships gay men form with each other and with their parents The true stories presented in this book indicate that confronted with a small but vicious virus many of us gay and straight have reassessed those cultural values that divide rather than unite us Those who have been hit with the hurricane force of AIDS have opened a path toward a new social order in which homosexuality is understood to be neither a choice nor a disease and showing respect love and affection to an individual regardless of his or her sexual orientation is a norm
