keeps readers on the cutting edge with the very latest information on nursing practice. It presents more detailed coverage of basic anatomy and physiology, pathophysiology, medical management and nursing care than any other book available. Its focus on clinical outcome management emphasizes patient outcomes and makes the material understandable. A completely new design integrates information in the book with web enhancements on the accompanying Evolve website such as online exercises, care plans, client education guides and clinical pathways as well as more on chapter topics such as diversity, ethics, religious beliefs affecting health care and more. Evidence Based Practice in Action boxes in certain management chapters present a synopsis of the research with 4-5 supporting article summaries to help readers understand the clinical significance of a problem. This feature has been revised for this edition. Concept Maps link pathophysiological processes, clinical manifestations and medical and nursing interventions. A concept map creator on Evolve further enhances learning. Online Complementary Critical Care and Rehabilitation Anatomy Physiological Review Physiological Genomics unit opener for chapters on genetics perspectives in oncology, cancer wounds and infectious disorders orients readers to important anatomy and physiology concepts. Anatomy Physiological Review Arousal Pain and Conscious Awareness unit opener for chapters on pain, palliative care, sleep, psychosocial and substance abuse orients readers to information that will be relevant to chapters in that unit.
