Teaching and Learning in Nursing Gregor Stiglic,Majda

Pajnikihar, Dominika Vrbnjak, 2017-05-17 A significant body of knowledge is the basis for a holistic caring and scientific evidence based nursing education in practice for professional development Quality teaching leads to good learning and both aspects are two of the main issues of quality assurance in nursing education today To begin with not all nursing students have the same levels of motivation or learning abilities It is with cognisance of providing quality care for patients that the role of the nurse educator has to be to enhance nursing students learning using scientific evidence based teaching Research around teaching and learning processes is an important part of the delivery of quality education which in turn impacts on students learning results and experiences thereby ensuring holistic biopsychosocial care to patients The main aim of teaching and learning in nursing at all levels is to enhance the nurses contribution to assist the individuals families and communities in promoting and preserving health well being and to efficiently respond to illnesses We hope that this book can be used as a resource to increase the body of knowledge in teaching and learning in nursing thereby enhancing the role and contribution of health care professionals to clinical practice
