Re Forming The Narrative:

Re-forming the Narrative David Hayman, 1987 **Re-forming the Past** A. Timothy Spaulding, 2005 The slave experience was a defining one in American history and not surprisingly has been a significant and powerful trope in African American literature In *Re Forming the Past* A Timothy Spaulding examines contemporary revisions of slave narratives that use elements of the fantastic to redefine the historical and literary constructions of American slavery In their rejection of mimetic representation and traditional historiography postmodern slave narratives such as Ishmael Reed's *Flight to Canada* Octavia Butler's *Kindred* Toni Morrison's *Beloved* Charles Johnson's *Ox Herding Tale* and Middle Passage Jewelle Gomez's *The Gilda Stories* and Samuel Delaney's *Stars in My Pocket like Grains of Sand* set out to counter the usual slave narrative's reliance on realism and objectivity by creating alternative histories based on subjective fantastic and non realistic representations of slavery As these texts critique traditional conceptions of history identity and aesthetic form they simultaneously re invest these concepts with a political agency that harkens back to the original project of the 19th century slave narratives In their rejection of mimetic representation and traditional historiography Spaulding contextualizes postmodern slave narrative By addressing both literary and popular African American texts *Re Forming the Past* expands discussions of both the African American literary tradition and postmodern culture **Re-Forming History** Mark

Sandle, William Van Arragon, 2019-05-23 Does the discipline of history need a reformation How should Christian faith shape the ways historians do their work This book written for students considers the how of doing history The authors first examine the current liturgies of the historical profession and suggest that the discipline is in crisis They argue for re formed Christian practices and methodologies for history The book asks important questions why do we do history and for whom How should faith shape how we do our research and tell stories What do we owe the dead How should Christian historians practice dangerous memory And how can Christian historians do justice love mercy and walk humbly with God How might we rethink reform renew reimagine and re practice the study of the past Christian historians must be sentinels of hope against the world's forgetfulness the authors argue and this book offers some pathways for rethinking our practices from a Christian perspective

Re-Forming the Body MR Philip A Mellor, Philip A. Mellor Chris Shilling, Professor Chris Shilling, 1997-02-14 Enriches the conceptual arsenal for interdisciplinary analysis of political social and cultural change stimulates more nuanced thinking about the cultural and political legacy of the Reformation era manages both to clarify tensions surrounding cultural and social integration in the late 20th century while underscoring the real historical complexity of modern bodies American Journal of Sociology Through an analysis of successive re formations of the body this innovative and penetrating book constructs a fascinating and wide ranging account of how the creation and evolution of different patterns of human community are intimately related to the somatic experience of the sacred The book places the relationship between the embodiment and the sacred at the crux of social theory and casts a fresh light on the emergence and transformation of

modernity It critically examines the thesis that the rational projects of modern embodiment have died and gone to cyberspace and suggests that we are witnessing the rise of a virulent effervescent form of the sacred which is changing how people see and keep in touch with the world around them

Re-forming Britain Elizabeth Darling, 2007-01-24 Re-forming Britain considers the nature and practice of architectural modernism in inter war Britain in a new light Bringing hitherto little considered protagonists and projects to the fore it argues that rather than being an imported idiom the new architecture in Britain formed part of an ongoing attempt to make a modern nation Spanning the period 1925-42 the book focuses on the key sites from and through which architectural modernism emerged in the UK Part one considers the main arena in which a will to modernize Britain developed in the 1920s In parts two and three the author documents contextualizes and explains how this modernizing will was given modernist form discussing the work of architects such as Wells Coates Maxwell Fry and Connell and Ward and their allied ventures with likeminded reformers in other fields These collaborations produced narratives of modernity buildings projects exhibitions and books through which the book argues modernist reformers were able to persuade politicians and those with influence upon them that modernism was the means to re-form the nation Re-forming Britain offers the first in depth analysis of well known modernist schemes such as Kensal House and the Pioneer Health Centre but also brings previously little studied or unknown activities to light This important work invites a new understanding of the nature of architectural modernism in inter war Britain and the ways in which it ultimately gave form to post war Britain

The "Odyssey" Re-formed Frederick Ahl, Hanna M. Roisman, 2018-10-18 Frederick Ahl and Hanna M Roisman believe that contemporary readers who do not know ancient Greek can gain a sophisticated grasp of the Odyssey if they are aware of some of the issues that intrigue and puzzle the experts They offer a challenging new reading of the epic that is directed to the general student of literature as well as to the classicist Ahl and Roisman suggest that while translators have served the Odyssey and its English speaking readers remarkably well the nonspecialist wishing to do a more detailed critical reading of the epic faces a dilemma The enormous scholarly literature makes few concessions to the nonspecialist and those studies designed for general readers tend to offer variations on the overly simple idealized readings of the epic common in high school and college survey courses The Odyssey Re-Formed offers a lively and detailed reading of the Odyssey episode by episode with particular attention paid to the manipulative power of its language and Homer's skill in using that power The authors explore how myth is shaped for specific rhetorical reasons and suggest ways in which the epic uses its audience's awareness of the varied pool of mythic traditions to give the Odyssey remarkable and subtle resonances that have profound poetic power
