Hunt, 2023-12-22 To be one of the middling sort in urban England in the late seventeenth or eighteenth century was to live a life tied one way or another to the world of commerce In a lively study that combines narrative and alternately poignant and hilarious anecdotes with convincing analysis Margaret R Hunt offers a view of middling society during the hundred years that separated the Glorious Revolution from the factory age Thanks to her exploration of many family papers and court records Hunt is able to examine what people thought felt and valued She finds that early capitalism and early modern family life were far more insecure than their classical models supposed Commercial needs and social needs coincided to a large extent The family is central to Hunt's story and she shows how financial struggles brought conflict ambiguity and tension to the home She investigates the way gender intertwined with class and family hierarchy and the way many businesses survived as precarious successes secured

through the sacrifices made by female as well as male family members The Middling Sort offers a dynamic portrait of a society struggling to minimize the considerable social and psychic dislocation that accompanied England's launch of a full scale market economy To be one of the middling sort in urban England in the late seventeenth or eighteenth century was to live a life tied one way or another to the world of commerce In a lively study that combines narrative and alternately poignant and hilarious anecdote Cultural Capital John Guillory, 2023-10-24 An enlarged edition to celebrate the thirtieth anniversary of John Guillory's formative text on the literary canon Since its publication in 1993 John Guillory's *Cultural Capital* has been a signal text for understanding the codification and uses of the literary canon *Cultural Capital* reconsiders the social basis for aesthetic judgment and exposes the unequal distribution of symbolic and linguistic knowledge on which culture has long been based Drawing from Pierre Bourdieu's sociology Guillory argues that canon formation must be understood less as a question of the representation of social groups and more as a question of the distribution of cultural capital in schools which regulate access to literacy to the practices of reading and writing Now as the crisis of the canon has evolved into the so called crisis of the humanities Guillory's groundbreaking incisive work has never been more urgent As scholar and critic Merve Emre writes in her introduction to this enlarged edition Exclusion selection reflection representation these are the terms on which the canon wars of the last century were fought and the terms that continue to inform debates about for instance decolonizing the curriculum and the rhetoric of antiracist pedagogy **Booker T.
