Reaching Out Helen Ruddle, Joyce O'Connor, 1993 **Two Paths, One Purpose : Voluntary Action in Ireland, North and South** Nicholas Acheson, 2004 **Community Foundations: an introductory report on international experience and Irish potential** , **Reaching Out** Helen Ruddle, Ray Mulvihill, Policy Research Centre, 1995 *Quality of Life in Ireland* Tony Fahey, Helen Russell, Christopher T. Whelan, 2008-06-11 Frances Ruane Director Economic and Social Research Institute Irish and international scholars continue to be curious about Ireland's exceptional economic success since the early 1990s While growth rates peaked at the turn of the millennium they have since continued at levels that are high by any current international or historical Irish measures Despite differences of view among Irish economists and policymakers on the relative importance of the factors that have driven growth there is widespread agreement that the process of globalisation has contributed to Ireland's economic development In this context it is helpful to recognise that globalisation has created huge changes in most developed and developing countries and has been associated inter alia with reductions in global income disparity but increased income disparity within individual countries This book reflects on how from a social perspective Ireland has prospered over the past decade In that period we have effectively moved from being a semi developed to being a developed economy While the book's main focus is on the social changes induced by economic growth there is also recognition that social change has facilitated economic growth Although many would regard the past decade as a period when economic and social elements have combined in a virtuous cycle there is a lingering question as to the extent to which we have better lives now that we are economically better off *Human Rights and Charity Law* Kerry O'Halloran, 2016-03-10 The 60 or so nations that subscribe to the common law tradition had for centuries broadly accepted the same legal definitions of what constitutes a charity In recent years however a number of countries have embarked on charity law reform processes designed to strengthen the regulatory framework and to review and encode common law concepts A primary driver of reform was the need to modernise national charity law and ensure human rights compatibility In light of these reforms this book takes stock of how charity law is adapting to face the challenges presented by human rights The book identifies the key areas where human rights and charity law intersect and examines the importance of those areas the principles involved and their political significance It offers a comparative analysis of selected common law countries including England Wales Ireland US Canada Australia and New Zealand assessing the extent of national human rights and charity compatibility Kerry O'Halloran also goes on to consider tensions arising from the intersection of human rights and charity law including the significance of cultural values and heritage the importance of proportionality and striking a balance between public and private interests in current society Corporate Social Responsibility Jesse Dillard, Kathryn Haynes, Alan Murray, 2012-09-10 Concepts of corporate social responsibility CSR are widely used by businesses professional bodies and academics but are also widely contested CSR is usually described as comprising three

elements environmental economic and social though there is no serious consensus on how to go about translating ideas into practice This research handbook addresses some key areas of contention theory and practice within CSR in order to address challenge and inform debate in academia and practice The collaborative text extends understanding of CSR through articulating current thinking on each facet of a vital subject Each theme is represented by inter disciplinary discussion of key questions on CSR by researchers and practitioners in the field In doing so the book Explores and critiques CSR goals and national organizational and managerial strategies Reviews the distinctive role and importance of CSR to academics professionals and practitioners and identifies appropriate bridging strategies Evaluates the nature direction and applicability of selected theoretical dimensions which inform the understanding of CSR Assesses the opportunities for theory building to support further understanding of the complexities of CSR and the sustainability and long term value of CSR practice to corporations and civil society This timely and significant contribution to the theory and practice of CSR will prove to be vital reading for students researchers and practitioners involved with the field It will also become a key reference for anyone with an interest in business and society

Whelan,2007 **Devils and Angels** Eoin Devereux,1998 Exploring how television tells stories about poverty in ideological ways Devils and Angels examines how poverty is explained on factual fictional and fund raising television **Global Civil Society** Lester M. Salamon,1999 First place winner of Independent Sector s 2001 Virginia A Hodgkinson Research Prize Detailed analyses of twenty two countries in Europe the Americas Asia and the Middle East Exemplifies how global civil society has significantly grown in recent years This is a comprehensive country by country analysis of the scope size composition and financing of the global civil society sector throughout the world The contributors assert that the nonprofit sector is a more significant economic force around the world than is commonly understood and that substantial differences exist in its overall size and composition in different countries and that the sector has grown substantially in recent years The book covers twenty two countries in Western Europe Central Europe Latin America North America Asia and the Middle East See also **Global Civil Society Vol 2 Social Capital and Sport Governance in Europe** Margaret Groeneveld,Barrie Houlihan,Fabien Ohl,2010-09-13 Although there is significant interest in the social role of sport in fostering civil society from both policymakers and academics there is a lack of evidence of the specific role of sport federations in this system This book critically presents the mechanisms and structures in a selection of sport federations within a variety of European countries that illuminate the varied relationships between not for profit sport federations their members governments and the citizens they represent The contributors explore the contrasts and synergies between core social capital theoretical perspectives and how these may be informed by and or shape the realities of governance from different perspectives within the sport system Disability, Exclusion & Poverty ,1994

Understanding Teenagers Tony Humphreys,Helen Ruddell,2012-08-17 Helping young people towards maturity demands

that they be mature themselves Without such maturity it is difficult to relate fully to the challenging behaviour of some adolescents A relationship that is genuine non judgemental compassionate empathic and unconditionally loving is necessary in order to resolve conflicts that so often arise between parents other adults and teenagers The authors emphasise that no matter how problematic a young person s behaviour may be there is a cause or explanation appreciation of this goes a long way towards helping young people to resolve that which is troubling them The book is structured so that each chapter stands on its own allowing the reader to focus on specific issues that may arise in their own and their teenagers lives *Families and States in Western Europe* Quentin Skinner,2011-05-19 This collection of essays traces the relationship between families and states in the major countries of Western Europe since 1945 examining the power of states to shape family life and the capacity of families to influence states Written by an exceptionally distinguished team of scholars Families and States in Western Europe follows many narratives allowing comparisons to be drawn between different countries The essays point to numerous convergences illustrating how states have coped with common problems arising at the level of family life and exploring issues such as secularism the pressure of multiculturalist demands and the growing rejection of welfare state principles Families and States in Western Europe will be of interest to anyone analysing relations between civil society and the modern democratic state and the place of the family within this relationship This collection makes a significant contribution to current political theory and to our understanding of European family life in its many different forms
