Being/s in Transit ,2021-11-22 This fifth volume of ASNEL Papers covers a wide range of theoretical and thematic approaches to the topics of travelling migration and dislocation All migrants are travellers but not all travellers are migrants Migration and the figure of the migrant have become key concepts in recent post colonial studies However migration is not such a new or exceptional phenomenon From the eighteenth century onward there have been migrations from Europe to what are now called post colonial countries and this prepared the ground for movement back to the old but also to the new centres of Europe and elsewhere Travel and travel experience on the other hand have been

part of the cultural codes not only of the West and not only of imperialism The essays in this volume look at both kinds of movement at their intersections and at their dis locating effects They cover a wide range of topics from early seventeenth century travel reports through nineteenth century women s travel writing to such contemporary writers as Michael Ondaatje and Janette Turner Hospital *The Cambridge History of Australian Literature* Peter Pierce,2009-09-17 Draws on scholarship from leading figures in the field and spans Australian literary history from colonial origins indigenous and migrant literatures as well as representations of Asia and the Pacific and the role of literary culture in modern Australian society *The Animal Fable in Science Fiction and Fantasy* Bruce Shaw,2010-04-23 Though animal stories and fables stretch back into the antiquity of ancient India Persia Greece and Rome the reasons for writing them and their resonance for readers and listeners remain consistent to the present This work argues that they were essential sources of amusement and instruction and were also often profoundly unsettling Such authors in the realm of the animal fable as Tolkien Freud Voltaire Bakhtin Cordwainer Smith Karel Capek Vladimir Propp and many more are discussed *Australian National Bibliography* ,1978 *The A to Z of Australia* James C. Docherty,2010-04-01 The last continent to be claimed by Europeans Australia began to be settled by the British in 1788 in the form of a jail for its convicts While British culture has had the largest influence on the country and its presence can be seen everywhere the British were not Australia s original populace The first inhabitants of Australia the Aborigines are believed to have migrated from Southeast Asia into northern Australia as early as 60 000 years ago This distinctive blend of vastly different cultures contributed to the ease with which Australia has become one of the world s most successful immigrant nations The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through a detailed chronology an introduction appendixes a bibliography and cross referenced dictionary entries on some of the more significant persons places and events institutions and organizations and political economic social cultural and religious facets author James Docherty provides a much needed single volume reference on Australia from its most unpromising of beginnings as a British jail to the liberal tolerant democracy it is today **Chinese in Australian Fiction, 1888-1988 , A Reference Guide for English Studies** Michael J.
