Reading And Responding To Mircea Eliades History Of Religious Ideas :

Reading and Responding to Mircea Eliade's History of Religious Ideas John R. Mason, 1993-01-01 The Lure of the Late Eliade Mircea Eliade was the 20th century's foremost historian of religions. This is the first book devoted to the last years of Eliade's life when he was writing *A History of Religious Ideas*, a work he considered his magnum opus. It draws on his personal journals to describe the context in which the History was written. The reader is invited both to explore his understanding of religion and to experience his effort to construct a truly universal history of religions. It also responds to Eliade's History by raising critical questions regarding its scientific status, his relationship to Goethe, and allegations of involvement in fascism in the 1930s. It suggests how Eliade's project can be enhanced through the recent work of Robert Cummings Neville. The study includes substantial bibliographical notes that will further the study of both Eliade and Neville. 69 95 136pp 1993 Reconstructing Eliade Bryan S. Rennie, 1996-01-01 Provides a coherent and defensible interpretation of Eliade's thought which allows less familiar readers to approach Eliade with a greater clarity and precision. Foreword by Mac Linscott Ricketts, a leading translator of Eliade's writings.

Indoi Hemkhochon Chongloi, 2008 Originally presented as the author's thesis to the Senate of Serampore College 2004 under the title *A historical phenomenological study of Primal Kuki religious symbolism with special reference to Indoi in the framework of Mircea Eliade's interpretation of religious symbolism*.

The Truth of Broken Symbols Robert C. Neville, 1996-01-01 This book provides a cross-cultural analysis of how religious symbols function from a theological and philosophical perspective. Showing how religious symbols can be true in various qualified senses, Neville presents a theory of religious symbolism in the American pragmatic tradition, extending and elaborating Tillich's claim that religious symbols participate in the divine realities to which they refer and yet must be broken in order not to be idolatrous or demonic. *The Truth of Broken Symbols* offers a theory of religious symbolism treating reference, meaning, and interpretation, and discussing different functions of religious symbols in theological, practical, and devotional contexts. It shows that religious symbols are to be properly understood as true or false and that symbol systems such as myths, theologies, or liturgical symbols are to be used to engage divine realities while internally exhibiting semiotic structures of reference, meaning, and interpretation.

On the Scope and Truth of Theology Robert C. Neville, 2006-06-05 A genuinely fresh theological project that accounts for the interdisciplinary nature of religion and its discontents.

Religion Robert Cummings Neville, 2015-01-08 Complete 3-volume set available for special price. Philosophical Theology Set Volumes 1, 2, and 3. The concluding volume in a trilogy advancing a systematic philosophical theology, this book presents a plausible sacred worldview for religious participation. *Religion* is the third and final volume in Robert Cummings Neville's systematic development of a new philosophical theology. Unfolding through his earlier volumes *Ultimates* and *Existence*, and now in *Religion*, philosophical theology considers first-order questions generally treated by religious traditions through philosophical methods while reflecting Neville's long engagement with philosophy, theology, and Eastern and Western

religious traditions In this capstone to the trilogy Neville provides a theory of religion and presents a sacred worldview to guide religious participation His philosophical theory of value enlightens religions approaches to ethics spirituality and religious institutional living and collaboration With a detailed examination of plausibility conditions for sacred worldviews the book concludes with an exploration of religionless religion for which institutions of religion are of penultimate value Through the development of philosophical theology Neville has built a unique multidisciplinary comparative nonconfessional theological system one that addresses concerns and provides tools for scientific and humanistic scholars of religion postmodern thinkers intellectuals from both secular and religious backgrounds and those interested in the global state of religion today

Religion in Late Modernity Robert Cummings Neville, 2012-02-01 Religion in Late Modernity runs against the grain of common suppositions of contemporary theology and philosophy of religion Against the common supposition that basic religious terms have no real reference but are mere functions of human need the book presents a pragmatic theory of religious symbolism in terms of which the cognitive engagement of the Ultimate is of a piece with the cognitive engagement of nature and persons Throughout this discussion Neville develops a late modern conception of God that is defensible in a global theological public Against the common supposition that religion is on the retreat in late modernity except in fundamentalist forms the author argues that religion in our time is a stimulus to religiously oriented scholarship a civilizing force among world societies a foundation for obligation in politics a source for healthy social experimentation and the most important mover of soul Against the common supposition that religious thinking or theology is confessional and inevitably biased in favor of the thinker's community Neville argues for the public character of theology the need for history and phenomenology of religion in philosophy of religion and the possibility of objectivity through the contextualization of philosophy contrary to the fashionable claims of neo pragmatism This vigorous analysis and program for religious thinking is straightforwardly pro late modern and anti postmodern a rousing gallop along the high road around modernism

God, Reason and Religions Eugene Thomas Long, 2012-12-06 The first issue of the International Journal for the Philosophy of Religion appeared in the Spring 1970 This collection of essays is presented in celebration of the twenty fifth anniversary of the journal Contributors to the volume are to be counted among today's leading philosophers of religion They represent different approaches to the philosophical consideration of religion and their published work is helping shape discussions of the philosophy of religion as we approach the beginning of the twenty first century Considered by some to be terminal at mid century the philosophy of religion has undergone a renaissance during the second half of the century And the journal may be said to provide some of the explanation for this development A special debt of gratitude is owed to Edgar Henderson Robert Leet Patterson and Henry Sprinkle founders of the journal Without their vision and determination it would not have come into existence
