Realistic Socio Legal Theory Pragmatism And A Social Theory Of Law:

Realistic Socio-legal Theory Brian Z. Tamanaha,1997 Combining philosophical pragmatism with a methodological foundation Tamanaha formulates a framework for a realistic approach to socio legal theory The strengths of this approach are contrasted with that of the major schools of socio legal theory by application to core issues in this area Thus Tamanaha explores the problematic state of socio legal studies the relationship between behaviour and meaning the notion of legal ideology the problem of indeterminacy in rule following and application and the structure of judicial decision making These issues are tackled in a clear and concise fashion while articulating a social theory of law which draws equally from legal theory and socio legal theory

Theory and Method in Socio-Legal Research Reza Banakar,Max Travers,2005-12-19 Socio legal researchers increasingly recognise the need to employ a wide variety of methods in studying law and legal phenomena and the need to be informed by an understanding of debates about theory and method in mainstream social science The papers in this volume illustrate how a range of topics including EU law ombudsmen judges lawyers Shariah Councils and the quality assurance industry can be researched from a socio legal perspective The objective of the collection is to show how different methods can be used in researching law and legal phenomena how methodological issues and debates in sociology are relevant to the study of law and the importance of the debate between structural and action traditions in researching law It also approaches the methodological problem of how sociology of law can address the content of legal practice from a variety of perspectives and discusses the relationship between pure and applied research The editors provide a critical introduction to each of the six sections and a general introduction on law sociology and method The collection will provide an invaluable resource for socio legal researchers law school researchers and postgraduates

Police Visibility Bryce Clayton Newell, 2021-06-15 Police Visibility presents empirically grounded research into how police officers experience and manage the information politics of surveillance and visibility generated by the introduction of body cameras into their daily routines and the increasingly common experience of being recorded by civilian bystanders Newell elucidates how these activities intersect with privacy free speech and access to information law and argues that rather than being emancipatory systems of police oversight body worn cameras are an evolution in police image work and state surveillance expansion Throughout the book he catalogs how surveillance generates information the control of which creates and facilitates power and potentially fuels state domination The antidote he argues is robust information law and policy that puts the power to monitor and regulate the police squarely in the hands of citizens

in the sociology of religion Ubiquitous Law Emmanuel Melissaris, 2016-02-17 Ubiquitous Law explores the possibility of understanding the law in dissociation from the State while at the same time establishing the conditions of meaningful communication between various legalities This book argues that the enquiry into the legal has been biased by the implicit or explicit presupposition of the State's exclusivity to a claim to legality as well as the tendency to make the enquiry into the law the task of experts who purport to be able to represent the legal community's commitments in an authoritative manner Very worryingly the experts point of view then becomes constitutive of the law and parasitic to and distortive of people's commitments Ubiquitous Law counter suggests a new methodology for legal theory which will not be based on rigid epistemological and normative assumptions but rather on self reflection and mutual understanding and critique so as to establish acceptable differences on the basis of a commonality **Flexible Regional Economic Integration in Africa**

Timothy Masiko, 2022-04-21 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience Flexible Regional Economic Integration in Africa was awarded the 2020 SIEL Hart Prize in International Economic Law
