Reasons For The Fear Of Death:

An Earnest Appeal to Men of Reason and Religion. By John Wesley .. The Eighth Edition John Wesley, 1796 *The Limits of Reason in Hobbes's Commonwealth* Michael P. Krom, 2011-10-06 The Limits of Reason in Hobbes's Commonwealth explores Hobbes's attempt to construct a political philosophy of enduring peace on the foundation of the rational individual. Hobbes's rational individual motivated by self-preservation obeys the laws of the commonwealth and thus is conceived as the model citizen. Yet Hobbes intimates that there are limits to what such an actor will do for peace and that the glory seeker too rarely found to be presumed on is capable of a generosity that is necessary for political longevity. Michael P. Krom identifies this as a fundamental contradiction in Hobbes's system: he builds the commonwealth on the rational actor yet acknowledges the need for the irrational glory seeker. Krom argues that Hobbes's attempt to establish a king of the proud fails to overcome the limits of reason and the precariousness of politics. This book synthesizes recent work on Hobbes's understanding of glory and political stability, challenging the view that Hobbes succeeds in incorporating glory seekers into his political theory and explores the implications of this for contemporary political philosophy after Rawls.

A Farther Appeal to Men of Reason and Religion John Wesley, 1745 *The Fear of God in Relation to Religion, Theology and Reason* Robert BROWN (Minister of Markinch.), 1876

Reasons and the Fear of Death R. E. Ewin, 2002 Philosophers have argued back and forth about whether the fear of death can be justified by arguments of rationality. Ewin philosophy U of Western Australia suggests that both sides have gotten the question wrong. Fear of death, he suggests, is prerational, underlying all of the concepts with which we reason. Rather than reifying Reason, we should see reasons as emerging from a complex of emotion, cognition, and other aspects of being human that emerged from our evolutionary history. In approaching reason and death in this way, we can shed new light on the moral judgements on euthanasia and related questions. Annotation copyrighted by Book News Inc. Portland, OR.

Reasons and Empty Persons: Mind, Metaphysics, and Morality Christian Coseru, 2023-02-22 Best known for his groundbreaking and influential work in Buddhist philosophy, Mark Siderits is the pioneer of fusion or confluence philosophy, a boldly systematic approach to doing philosophy premised on the idea that rational reconstruction of positions in one tradition in light of another can sometimes help address perennial problems and often lead to new and valuable insights. Exemplifying the many virtues of the confluence approach, this collection of essays covers all core areas of Buddhist philosophy as well as topics and disputes in contemporary Western philosophy relevant to its study. They consider in particular the ways in which questions concerning personal identity figure in debates about agency, cognition, causality, ontological foundations, foundational truths, and moral cultivation. Most of these essays engage Siderits' work directly, building on his pathbreaking ideas and interpretations. Many deal with issues that have become a common staple in philosophical engagements with traditions outside the West. Their variety and breadth bear testimony to the legacy of Siderits' impact in shaping the contemporary conversation in Buddhist philosophy and its reverberations in mainstream philosophy, giving readers a clear

sense of the remarkable scope of his work

Many texts attempt to bridge theory and research They include one or two pages dealing with important theorists Jung Adler Freud et al inserted into chapters focused on academic studies In most cases the discussion fails to do justice to the theorists and the relationship between the ideas and the empirical work is often tenuous at best This book takes a different approach An alternative to Ewen's An Introduction to Theories of Personality this book features a chapter on each major type of theory followed by a separate chapter reviewing the relevant research controversies and emerging findings Although it incorporates material from the previous text there are substantial differences Personality: A Topical Approach devotes more attention to psychological research and considerably less attention to the more minor and abstruse aspects of various theories Chapters are devoted to the following theories psychoanalytically oriented trait cognitive self humanistic and behaviorism While the book emphasizes major research foci the Big Five personality factors self efficacy self esteem and more it also includes a chapter on research methods and coverage of issues often omitted from other texts such as dream interpretation cognitions and the Holocaust scientific inquiry and near death experiences The book also provides study questions a help section and a glossary

Homer and the Tradition of Political Philosophy Peter J. Ahrensdorf, 2022-08-25

In this book Peter Ahrensdorf explores an overlooked but crucial role that Homer played in the thought of Plato Machiavelli and Nietzsche concerning notably the relationship between politics religion and philosophy and in their debates about human nature morality the proper education for human excellence and the best way of life By studying Homer in conjunction with these three political philosophers Ahrensdorf demonstrates that Homer was himself a philosophical thinker and educator He presents the full force of Plato's critique of Homer and the paramount significance of Plato's achievement in winning honor for philosophy

Ahrens Dorf also makes possible an appreciation of the powerful concerns expressed by Machiavelli and Nietzsche regarding that achievement. By uncovering and bringing to life the rich philosophic conversation among these four foundational thinkers Ahrens Dorf shows that there are many ways of living a philosophic life. His book broadens and deepens our understanding of what a philosopher is.

Self-Cultivation Philosophies in Ancient India, Greece, and China

Christopher W. Gowans, 2021. Christopher W. Gowans shows how philosophy played a central role in self cultivation programs in three ancient cultures. On the basis of a philosophical understanding of human nature self cultivation philosophies give an analysis of what is problematic in human life, propose an ideal state of being we can hope to attain, and provide a set of practices philosophical, moral, therapeutic, or spiritual we can undertake to achieve this end. This book explains the importance of self cultivation philosophies in three ancient traditions: India (the Bhagavad Gita, Samkhya and Yoga and Buddhism), Greece and Rome (Epicureanism, Stoicism, and Pyrrhonian Skepticism), and China (Confucianism, Daoism, and Chan Buddhism).
