Rebels And Reactionaries:

Romantics, Rebels and Reactionaries Marilyn Butler, 1987 **Romantics, Rebels and Reactionaries** Marilyn Butler, 1985 *Romantics, Rebels and Reactionaries* Marilyn Butler, 1981 **Spirits of Fire** G. A. Rosso, Daniel P. Watkins, 1990 This work is a compilation of twelve essays on romantic literature by practitioners of a resurgent historical criticism sharing the common assumption that no aspect of the object of literary study escapes the conditioning power of historical change **A New World of Labor** Simon P. Newman, 2013-05-28 The small and remote island of Barbados seems an unlikely location for the epochal change in labor that overwhelmed it and much of British America in the seventeenth and eighteenth centuries However by 1650 it had become the greatest wealth producing area in the English speaking world the center of an exchange of people and goods between the British Isles the Gold Coast of West Africa and the New World By the early seventeenth century more than half a million enslaved men women and children had been transported to the island In A New World of Labor Simon P Newman argues that this exchange stimulated an entirely new system of bound labor Free and bound labor were defined and experienced by Britons and Africans across the British Atlantic world in quite different ways Connecting social developments in seventeenth century Britain with the British experience of slavery on the West African coast Newman demonstrates that the brutal white servant regime rather than the West African institution of slavery provided the most significant foundation for the violent system of racialized black slavery that developed in Barbados Class as much as race informed the creation of plantation slavery in Barbados and throughout British America Enslaved Africans in Barbados were deployed in radically new ways in order to cultivate process and manufacture sugar on single integrated plantations This Barbadian system informed the development of racial slavery on Jamaica and other Caribbean islands as well as in South Carolina and then the Deep South of mainland British North America Drawing on British and West African precedents and then radically reshaping them Barbados planters invented a new world of labor **Short Stories and Political Philosophy** Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2018-11-01 Short Stories and Political Philosophy Power Prose and Persuasion explores the relationship between fictional short stories and the classic works of political philosophy This edited volume addresses the innovative ways that short stories grapple with the same complex political and moral questions concerns and problems studied in the fields of political philosophy and ethics The volume is designed to highlight the ways in which short stories may be used as an access point for the challenging works of political philosophy encountered in higher education Each chapter analyzes a single story through the lens of thinkers ranging from Plato and Aristotle to Max Weber and Hannah Arendt The contributors to this volume do not adhere to a single theme or intellectual tradition Rather this volume is a celebration of the intellectual and literary diversity available to students and teachers of political philosophy It is a resource for scholars as well as educators who seek to incorporate short stories into their teaching practice **The Constitution of English Literature** Michael Gardiner, 2013-07-18 This book is available as open access through the

Bloomsbury Open Access programme and is available on www.bloomsburycollections.com In this extended essay Michael Gardiner examines the ideology of the discipline of English Literature in the light of the serious redefining work on England and Englishness that has been conducted in Political Studies in the last decade He argues that English Literature emerges from the development of the state and that consequently it has suppressed the idea of the nation His claim is that English Literature has lost its form since its methodology and canonicity depended so heavily on a constitutional form which can no longer be defended He calls upon those working in English Literature to recognise that they are not really participating in the same discipline defined by the Burkean constitutional settlement even if they think of themselves as writing within the canon His view is that a lack of appreciation of hard edged political factors have led to a continuant and regressive form of English Literature which tends to hang on to stifling methodologies In its place he appeals for the creation of a more open ended inclusive internationalist and comparative literature of England

European Literatures in Britain, 1815-1832: Romantic Translations Diego Saglia, 2018-10-18 Studies of British Romanticism have traditionally tended to envisage it as an intensely local indeed insular phenomenon Yet just as the seemingly isolated British Isles became more and more central in international geo political and economic contexts between the 1780s and the 1830s so too literature and culture were characterized by an increasingly close and relevant dialogue with foreign and especially Continental European traditions both past and contemporary Diego Saglia casts new light on the significantly transformative impact of this dialogue on Britain during the years that saw a return to unimpeded cross border cultural traffic after the end of the Napoleonic emergency Focusing on modes of translation and appropriation in a variety of literary and cultural forms this book reconsiders the notion of the supposed intrinsic insularity of Britain through the lens of new key questions about the national international and transnational features of Romantic period literature and culture

The End of Anglo-America Robert Arthur Burchell, 1991 This collection of essays examines the phenomenon of the gradually evolving cultural differences which took place between America and Britain after the American revolution A culture of individualism began to emerge in contrast with elitism leading to suspicion of government and emerging personal ambitions particularly with regard to one's children However cultural changes emerged at a different pace in different parts of the country One author argues that Britain and America continued as members of a single political family which in turn belonged to a wider European community Another suggests that a clear but selective emancipation from the British political culture took place and that a development of distinctly American institutions and practices emerged Yet another believes that in the United States there was less criticism of business success and less possibility of the generations that succeeded business success being seduced by gentrification

William Hazlitt Kevin Gilmartin, 2015 William Hazlitt is regarded as the finest prose stylist of the English Romantic period by virtue of his work as an essayist metaphysician and a critic of literature and the fine arts William Hazlitt Political Essayist makes the case for including politics in this achievement
