Recent Developments in Alcoholism Marc Galanter, 1984 *Recent Developments in Alcoholism* Marc Galanter, 1992 *Recent Developments in Alcoholism* Marc Galanter, 1997-01-31 From the President of the Research Society on Alcoholism On behalf of the Research Society on Alcoholism I am pleased to introduce this thirteenth volume of *Recent Developments in Alcoholism* about alcohol and violence Current concepts are presented in well organized sections that focus on epidemiology neurobiology psychology and family issues It is coming increasingly clear that age gender socioeconomic circumstances and genetics affect aggressive behavior and vulnerability to alcoholism This volume contains up to date discussions of these issues Indeed the information presented here will help all alcohol researchers to identify biological and social factors that contribute to the comorbidity of alcoholism and aggression The editors and associate editors should be congratulated for bringing together such important information This volume will be a valuable resource for investigators and therapists alike Ivan Diamond M D Ph D President Research Society on Alcoholism From the President of the American Society of Addiction Medicine The American Society of Addiction Medicine is honored to continue its sponsorship with the Research Society on Alcoholism of *Recent Developments in Alcoholism* The topic of alcohol and violence is a particularly timely one given the growing number of studies that are examining the relationship between the two These studies are consistent with the hypothesis that alcohol can increase aggression and contribute to both domestic and criminal violence Intoxicating blood levels of alcohol have been found to be especially prevalent in those injured in fights and assaults

Recent Developments in Alcoholism Marc Galanter, 1991-07-31 **Recent Developments in Alcoholism** Marc Galanter, 2013-11-27 From the President of the Research Society on Alcoholism In the last decade research concerning the causes and consequences of alcohol abuse and alcoholism has come of age We have witnessed a plethora of scientific findings that have shed light on some of the actions of alcohol at the molecular level Interesting new data have been forthcoming on the complexities of the development of tolerance to alcohol It is becoming increasingly appropriate to consider that tolerance to alcohol involves biological as well as psychological factors New scientific insights have been gained concerning the treatment of withdrawal as well as the presence of persistent withdrawal signs that may possibly be involved with relapse More recently new and compelling data indicating that alcoholism is a common familial disorder have appeared Clinical studies indicate that alcoholism is a heterogeneous disorder with multiformity in clinical symptomatology and genetic heterogeneity The heterogeneity of the clinical features and the heritability of the predisposing factors of alcoholism are currently under vigorous scientific

investigation In the past several years sophisticated psychosocial studies have provided fundamental information on subjects at high risk for alcoholism Psychosocial and biological studies of families including alcoholics and subjects at high risk are likely to bring new insights to our understanding of etiological factors Moreover as a result of these studies we stand to develop better prevention initiatives and treatment approaches *Recent Developments in Alcoholism* Marc Galanter,2013-03-09 The purpose of this series is to provide an overview of recent research developments in the field of alcoholism so that interested professionals and researchers may keep abreast of this complex multidisciplinary work These annual volumes will present a scholarly review and analysis of selected research topics prepared by leading figures in the field Where appropriate the attempt is made to present contrasting perspectives and views particularly on issues where there is ongoing controversy The American Medical Society on Alcoholism and the Research Society on Alcoholism have undertaken this collaborative venture because of the perceived need for such a comprehensive resource These groups are both component organizations of the National Council on Alcoholism a broad based coalition which supports alcoholism treatment training and research on a national and international level This professional network has enabled us to draw on a panel of Associate Editors and on authors of international prominence The series should reflect a sophistication that will allow it to serve as a standard reference for the field *Cumulated Index Medicus* ,1994 *Alcoholism* Marc Galanter,2001-06-30 This latest installment in the renowned series explores the organizational issues around the access and delivery of substance abuse treatment and the role of managed care In 20 chapters by recognized experts important issues are addressed such as economics cost benefits financing of services and treatment outcome studies This volume will be of great value to both researchers and clinicians **The Alcohol and Other Drug Thesaurus** National Institute on Alcohol Abuse and Alcoholism (U.S.),1993
