Reducing Social Tension and Conflict Through the Group Conversation Method [by] Rachel Davis DuBois and Mewsoong Li Rachel (Davis) DuBois,1971 *Research in Education* ,1974 *Resources in Education* ,1995 *Inter-ethnic and Religious Conflict Resolution in Nigeria* Ernest E. Uwazie,Isaac Olawale Albert,G. N. Uzoigwe,1999-01-01 Since 1982 Nigeria has experienced more than ten large scale ethnic or religious riots in its major cities These violent clashes have wreaked economic political and social havoc caused an enormous number of deaths and injuries and posed serious obstacles to Nigeria s sociopolitical development as well as retarded efforts at nation building The papers collected in this book serve as a critical part of an overall objective to develop and promote mechanisms for the understanding and resolution of ethnic and religious conflicts in Nigeria Both academic and community leaders address various aspects of these conflicts and Uwazie offers several thoughtful options for their successful resolution Inter Ethnic and Religious Conflict Resolution in Nigeria will interest students of African history and current affairs scholars of anthropology and ethnicity studies and those involved in international relations and peace studies **Addressing Social Issues in the Classroom and Beyond** Samuel Totten,Jon Pedersen,2007-01-01 Addressing Social Issues in the Classroom and Beyond The Pedagogical Efforts of Pioneers in the Field is comprised of essays that delineate the genesis and evolution of the thought and work of pioneers in the field of social issues and education The authors many of whom themselves are noted professors of education and who have done significant work in the field of social issues and education delineate and analyze the efforts e g theoretical work research curriculum development and teaching of such pioneers within the larger framework of their life story As a result the reader is not only introduced to the significant work of each pioneer but valuable and often fascinating insights into how his her life experiences informed his her thinking beliefs goals and work This book constitutes a rich and unusual record of the thinking and accomplishments of those luminaries who worked tirelessly in the belief that a well educated and well informed populace was absolutely imperative in a democracy if the latter were to remain healthy and vibrant Beyond current scholars and students we believe that this book will be of great interest to a wide spectrum of individuals teacher educators who perceive the need to avail their students of the rich history rationales and methods for incorporating the study of social issues across the curriculum professors who teach history of curriculum courses and or history of education courses are likely to be drawn to the book both for the rich stories as well as the bounty of information found in each chapter those who specialize in autobiographical studies in the field of education are likely to find the book to be remarkably rich and valuable both for their own research as well as in their teaching secondary level teachers in science social studies and English who are interested in incorporating the study of social issues into the courses they teach will glean incredibly rich insights into why and how to go

about such an endeavor and future scholars and students who care deeply about how society impacts education education impacts society and how individuals and groups can have a positive impact on society through their collective efforts are bound to find the book both fascinating and instructive Perspectives on Contemporary Ethnic Conflict Santosh C. Saha,2006-01-01 The existing traditions of inquiry into ethnic conflict can be classified into four categories essentialism instrumentalism constructivism and institutionalism All four traditions have a distinguished lineage but none can really account for the worldwide spread of ethnic violence We need to move from the local to the macro or global This book using methodology from sociology history and politics will present the complexities of ethnic conflict in terms of linguistics religion territory and tribes in various regions These brilliant essays look at some of the most conflicted sites in the world where ethnic violence has been created and played out Burma Indonesia Rwanda Burundi Nigeria the Sudan Mexico and Guyana Divided into two parts Perspectives on Contemporary Ethnic Conflict is a rich text for scholars of conflict studies focusing on the sources and dynamics of ethnic violence and providing descriptions of ethnic conflict across the globe **Language, Literacy, and Power in Schooling** Teresa L. McCarty,2006-04-21 Language Literacy and Power in Schooling brings critical ethnographic perspectives to bear on language literacy and power in culturally and linguistically diverse contexts showing how literacy and schooling are negotiated by children and adults and how schooling becomes a key site of struggle over whose knowledge discourses and literacy practices count Part I examines tensions between the local and the general in literacy development and use Part II considers face to face interactions surrounding literacy practices in ethnically diverse classrooms and Part III widens the ethnographic lens to position literacy practices in the context of globalization and contemporary education policies Each section includes a substantive introduction by the editor and a synthetic commentary by a leading literacy researcher Above all this is a book oriented toward social action Unpacking the complexity of literacy practices and experiences in diverse settings the authors seek not only to build new knowledge but to inform and transform the pedagogies and policies that limit human potentials The chapters in this volume have much to teach us about the roots of inequality and the possibilities for positive change Together they highlight the urgent need for critical literacy researchers to engage politically confronting education policies that deny the rich multiplicity of human literacies thereby carving ever deeper cleavages between those with and without access to literacies of power The dual focus on language and literacy with critical ethnographic accounts of identity and schooling speaks to a growing constituency of scholars and practitioners concerned with the role of literacy and discourse in alternatively affirming or negating knowledge power and identity both within and outside of schools The Publishers' Trade List Annual ,1974
