

REDUCIBLE SUBGROUPS OF EXCEPTIONAL ALGEBRAIC GROUPS

ALASTAIR J. LITTERICK AND ADAM R. THOMAS

ABSTRACT. Let G be a simple algebraic group over an algebraically closed field. A closed subgroup H of G is called G -completely reducible (G -cr) if, whenever H is contained in a parabolic subgroup P of G , it is contained in a Levi factor of P . In this paper we complete the classification of connected G -cr subgroups when G has exceptional type, by determining the L_0 -irreducible connected reductive subgroups for each simple classical factor L_0 of a Levi subgroup of G . As an illustration, we determine all reducible, G -cr semisimple subgroups when G has type F_4 and various properties thereof. This work complements results of Lawther, Liebeck, Seitz and Testerman, and is vital in classifying non- G -cr reductive subgroups, a project being undertaken by the authors elsewhere.

1. INTRODUCTION

The subgroup structure of linear algebraic groups is a theory with applications throughout algebra and beyond. When working over $\mathbb{R}$ or $\mathbb{C}$, close connections with compact Lie groups give direct applications in geometry and physics. Over local fields and global fields, important applications are found in number theory, for instance in the Langlands program. Over finite fields and their algebraic closures, the subgroup structure has direct applications to the study of finite simple groups, for instance the subgroup structure of exceptional simple algebraic groups has been heavily used in understanding maximal subgroups of the corresponding finite groups of Lie type [18, 9, 8, 16].

Reductive subgroups of reductive groups are an important special instance of this problem. On the one hand, a result of Borel and Tits [5] states that for a reductive group G , a connected subgroup of G is either itself reductive, or contained ‘canonically’ in a proper parabolic subgroup of G . Thus the problem reduces to understanding parabolic subgroups and reductive subgroups, for instance a maximal connected subgroup of G is either parabolic or reductive. On the other hand, understanding reductive subgroups is equivalent to understanding affine homogeneous spaces for G , since for a closed subgroup $H \leq G$, the coset space G/H is an affine variety precisely when H° is reductive [23].

Let G be a connected reductive algebraic group over an algebraically closed field. Following [25], a closed subgroup H of G is said to be G -completely reducible (G -cr) if whenever H is contained in a parabolic subgroup P of G , it is contained in a Levi factor of P , and non- G -cr otherwise. Similarly, H is called G -irreducible or just *irreducible* if H is not contained in any proper parabolic subgroup of G , and *reducible* otherwise. The G -cr subgroups of G are precisely the L -irreducible subgroups of L , as L ranges over the Levi subgroups of G [4, Corollary 3.5], allowing $L = G$ to account for G -irreducible subgroups.

In the present work we classify the L_0 -irreducible connected subgroups as L_0 varies over those simple algebraic groups of classical type which occur as factors of Levi subgroups of a simple algebraic group G of exceptional type. Together with work of the second author and many others [1, 13, 14, 16, 28, 27, 29, 30, 31], the results here effectively complete the classification of G -cr

2010 *Mathematics Subject Classification.* 20G07 (Primary), 20G41, 20G10 (Secondary).

The first author is supported by the Alexander von Humboldt Foundation. Both authors thank the anonymous referee for their careful reading and numerous suggestions that have improved the paper.

Reductive Subgroups Of Exceptional Algebraic Groups

Gary M. Seitz

Reductive Subgroups Of Exceptional Algebraic Groups:

Reductive Subgroups of Exceptional Algebraic Groups Martin W. Liebeck, 1996

Exceptional Algebraic Groups Martin W. Liebeck, Gary M. Seitz, 1996 The theory of simple algebraic groups is important in many areas of mathematics The authors of this book investigate the subgroups of certain types of simple algebraic groups and obtain a complete description of all those subgroups which are themselves simple This description is particularly useful in understanding centralizers of subgroups and restrictions of representations

The Irreducible Subgroups of Exceptional Algebraic Groups Adam R. Thomas, 2021-06-18 This paper is a contribution to the study of the subgroup structure of exceptional algebraic groups over algebraically closed fields of arbitrary characteristic Following Serre a closed subgroup of a semisimple algebraic group G is called irreducible if it lies in no proper parabolic subgroup of G In this paper we complete the classification of irreducible connected subgroups of exceptional algebraic groups providing an explicit set of representatives for the conjugacy classes of such subgroups Many consequences of this classification are also given These include results concerning the representations of such subgroups on various G modules for example the conjugacy classes of irreducible connected subgroups are determined by their composition factors on the adjoint module of G with one exception A result of Liebeck and Testerman shows that each irreducible connected subgroup X of G has only finitely many overgroups and hence the overgroups of X form a lattice We provide tables that give representatives of each conjugacy class of connected overgroups within this lattice structure We use this to prove results concerning the subgroup structure of G for example when the characteristic is 2 there exists a maximal connected subgroup of G containing a conjugate of every irreducible subgroup A_1 of G

On Non-Generic Finite Subgroups of Exceptional Algebraic Groups Alastair J. Litterick, 2018-05-29 The study of finite subgroups of a simple algebraic group G reduces in a sense to those which are almost simple If an almost simple subgroup of G has a socle which is not isomorphic to a group of Lie type in the underlying characteristic of G then the subgroup is called non generic This paper considers non generic subgroups of simple algebraic groups of exceptional type in arbitrary characteristic

A_1 Subgroups of Exceptional Algebraic Groups Ross Lawther, Donna M. Testerman, 1999 This book is intended for graduate students and research mathematicians interested in group theory and generalizations

Maximal Subgroups of Exceptional Algebraic Groups Gary M. Seitz, 1991 Let G be a simple algebraic group of exceptional type over an algebraically closed field of characteristic p The subgroups of G maximal with respect to being closed and connected are determined although mild restrictions on p are required in dealing with certain simple subgroups of low rank For $p = 0$ we recover the results of Dynkin

Maximal PSL_2 Subgroups of Exceptional Groups of Lie Type David A. Craven, 2022-04-08 View the abstract

The Reductive Subgroups of F_4 David I. Stewart, 2013-04-22 Let G/K be a simple algebraic group defined over an algebraically closed field K of characteristic $p \geq 0$ A subgroup X of G is said to be G completely reducible if whenever it is

contained in a parabolic subgroup of G it is contained in a Levi subgroup of that parabolic. A subgroup X of G is said to be G -irreducible if X is in no proper parabolic subgroup of G and G -reducible if it is in some proper parabolic of G . In this paper the author considers the case that $G = F_4(K)$. The author finds all conjugacy classes of closed connected semisimple G -reducible subgroups X of G . Thus he also finds all non G -completely reducible closed connected semisimple subgroups of G . When X is closed connected and simple of rank at least two he finds all conjugacy classes of G -irreducible subgroups X of G . Together with the work of Amende classifying irreducible subgroups of type A_1 this gives a complete classification of the simple subgroups of G . The author also uses this classification to find all subgroups of $G = F_4$ which are generated by short root elements of G by utilising and extending the results of Liebeck and Seitz.

Algebraic Groups and their Representations
R.W. Carter, J. Saxl, 2012-12-06 This volume contains 19 articles written by speakers at the Advanced Study Institute on Modular representations and subgroup structure of algebraic groups and related finite groups held at the Isaac Newton Institute Cambridge from 23rd June to 4th July 1997. We acknowledge with gratitude the financial support given by the NATO Science Committee to enable this ASI to take place. Generous financial support was also provided by the European Union. We are also pleased to acknowledge funds given by EPSRC to the Newton Institute which were used to support the meeting. It is a pleasure to thank the Director of the Isaac Newton Institute Professor Keith Moffatt and the staff of the Institute for their dedicated work which did so much to further the success of the meeting. The editors wish to thank Dr Ross Lawther and Dr Nick Inglis most warmly for their help in the production of this volume. Dr Lawther in particular made an invaluable contribution in preparing the volume for submission to the publishers. Finally we wish to thank the distinguished speakers at the ASI who agreed to write articles for this volume based on their lectures at the meeting. We hope that the volume will stimulate further significant advances in the theory of algebraic groups.

The Maximal Subgroups of Positive Dimension in Exceptional Algebraic Groups
Martin W. Liebeck, Gary M. Seitz, 2004 Intends to complete the determination of the maximal subgroups of positive dimension in simple algebraic groups of exceptional type over algebraically closed fields. This title follows work of Dynkin who solved the problem in characteristic zero and Seitz who did likewise over fields whose characteristic is not too small.

Decoding **Reductive Subgroups Of Exceptional Algebraic Groups**: Revealing the Captivating Potential of Verbal Expression

In a time characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force. Its ability to evoke sentiments, stimulate introspection, and incite profound transformations is genuinely awe-inspiring. Within the pages of "**Reductive Subgroups Of Exceptional Algebraic Groups**," a mesmerizing literary creation penned with a celebrated wordsmith, readers set about an enlightening odyssey, unraveling the intricate significance of language and its enduring effect on our lives. In this appraisal, we shall explore the book is central themes, evaluate its distinctive writing style, and gauge its pervasive influence on the hearts and minds of its readership.

Reductive Subgroups Of Exceptional Algebraic Groups Introduction

In the digital age, access to information has become easier than ever before. The ability to download Reductive Subgroups Of Exceptional Algebraic Groups has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Reductive Subgroups Of Exceptional Algebraic Groups has opened up a world of possibilities. Downloading Reductive Subgroups Of Exceptional Algebraic Groups provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Reductive Subgroups Of Exceptional Algebraic Groups has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Reductive Subgroups Of Exceptional Algebraic Groups. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Reductive Subgroups Of Exceptional Algebraic Groups. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Reductive Subgroups Of Exceptional Algebraic Groups, users should also consider

the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Reductive Subgroups Of Exceptional Algebraic Groups has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Reductive Subgroups Of Exceptional Algebraic Groups Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Reductive Subgroups Of Exceptional Algebraic Groups is one of the best book in our library for free trial. We provide copy of Reductive Subgroups Of Exceptional Algebraic Groups in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Reductive Subgroups Of Exceptional Algebraic Groups. Where to download Reductive Subgroups Of Exceptional Algebraic Groups online for free? Are you looking for Reductive Subgroups Of Exceptional Algebraic Groups PDF? This is definitely going to save you time and cash in something you should think about.
