Reemployment Bonuses In The Unemployment Insurance System Evidence From Three Field Experiments:

Reemployment Bonuses in the Unemployment Insurance System Philip K. Robins, Robert G. Spiegelman, 2001 This volume analyzes the results of three studies conducted by the federal government in the 1980s on alternative approaches to reducing voluntary unemployment and improving the functioning of the unemployment insurance system These alternative programs in Illinois Pennsylvania and Washington utilized re employment bonuses as an incentive to claimants to reduce the amount of time spent on unemployment c Book News Inc Field Experiments in Political Science and Public Policy Peter John, 2017-01-06 Field experiments randomized controlled trials have become ever more popular in political science as well as in other disciplines such as economics social policy and development Policy makers have also increasingly used randomization to evaluate public policies designing trials of tax reminders welfare policies and international aid programs to name just a few of the interventions tested in this way Field experiments have become successful because they assess causal claims in ways that other methods of evaluation find hard to emulate Social scientists and evaluators have rediscovered how to design and analyze field experiments but they have paid much less attention to the challenges of organizing and managing them Field experiments pose unique challenges and opportunities for the researcher and evaluator which come from working in the field The research experience can be challenging and at times hard to predict This book aims to help researchers and evaluators plan and manage their field experiments so they can avoid common pitfalls It is also intended to open up discussion about the context and backdrop to trials so that these practical aspects of field experiments are better understood The book sets out ten steps researchers can use to plan their field experiments then nine threats to watch out for when they implement them There are cases studies of voting and political participation elites welfare and employment nudging citizens and developing countries **Selected Research Papers on Personal Reemployment Accounts** Elaine L. Wandner, 2010 This book is about the interrelationships between research policy and programs that have dealt with the problems faced by experienced Unemployed workers over the past 25 years Much of its focus is on a series of social sci ence experiments that were conducted during the late 1980s and early 1990s **Welfare Reform** Antoine Parent, 2017-09-08 Since the late 1980s welfare policies in France and the United States have increasingly been shaped by a strong emphasis on citizens obligations to work and be independent and a

weakening of entitlements to income maintenance Throughout the advanced industrialized nations welfare reforms incorporate work oriented measures such as financial incentives insertion contracts training and requirements to search for and accept jobs The evidence in this volume suggests that while the details may vary welfare reforms in France and the United States have more in common than is often acknowledged Welfare Reform provides an in depth analysis of the development and structure of modern welfare programs and how they function The dynamics of welfare reform are illuminated by focusing on two programs the Revenu Minimum d Insertion in France and Temporary Assistance for Needy Families in the United States Taking various analytic approaches contributors examine the relations between poverty and work how U S and French models of income support have been transformed in recent times the relative impacts of economic growth and policy reforms on rates of welfare participation and what happens to recipients who leave the welfare rolls Welfare Reform will help researchers and policymakers gain perspective on where they are headed and how best to get there as they journey down the highway of welfare reform Neil Gilbert is Chernin Professor of Social Welfare at the School of Social Welfare University of California at Berkeley and co director of the Center for Child and Youth Policy CCYP His numerous publications include 25 books and over 100 articles that have appeared in The Public Interest Society Commentary and other leading academic journals Antoine Parent is associate professor of economics at the University of Paris 8 associate researcher at MATISSE University of Paris 1 Sorbonne and research program manager at the Research Division of the French Ministry of Social Affairs
