Ordnance Engineering Design Handbook, 1968 **Industrial Science and Engineering**, 1956 Proceedings - Institution of Radio Engineers Institution of Radio Engineers, Australia, 1952 Preliminary Tests of a Center-fed 8000-foot Vertical Half-wave Transmitting Dipole E. A. Lewis, 1969 It was demonstrated experimentally that an 8000 foot half wave antenna wire suspended vertically from a helicopter and driven at its center by a battery powered transmitter provides an efficient radiating system for frequencies around 60 kHz In flight antenna impedance measurements were made in two different ways using telemetry techniques Supporting information was obtained from a 4000 foot open wire transmission line erected on poles and from laboratory bridge measurements on short samples of wire Certain mechanical properties of the wire and the method used for launching the antenna are described The electric field strengths received on the ground radiation patterns radiation efficiency bandwidth scattered waves and atmospheric electric currents in the antenna are discussed in detail Author **StarBriefs 2001**, 2012-12-06 This compilation probably looks like one of the craziest things a

human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions Contractions United States. Federal Aviation Administration,1969 Contains the approved word and phrase contractions used by personnel of the Federal Aviation Administration and other agencies in the use of air traffic control communications weather charting and associated services
