Jahrhundert und kann als Referenz für die Charakterisierung des Zeitgeistes herangezogen werden Darüber hinaus lassen sich die hier formulierten Thesen auch auf andere Maler und Kunstwerke der offiziellen akademischen Malerei übertragen und sind daher von allgemeinem historischen Interesse

Mission and Moral Reflection in Paul Michael D. Barram, 2006 The Apostle Paul sought to exert his influence and authority over the congregations he founded long after they had been established Such ongoing oversight by Christianity's prototypical evangelist has not been adequately understood In a brief 1987 article W Paul Bowers challenged John Knox's assertion that Paul's pastoral and administrative work irked him and that he wanted to be free of it This book confirms and significantly develops Bowers's little known thesis examining a wide range of passages in the apostle's undisputed letters and highlighting crucial implications of Paul's broadly conceived vocation for understanding his mission and moral reflection

Robert A. Dahl David Baldwin, Mark Haugaard, 2017-10-02 This book is devoted to the work of Robert A Dahl who passed away in 2014 Dahl was one of the most important American political scientists and normative democratic theorists of the post war era and he was

also an influential teacher who mentored some of the most significant academics of the next two generations of American political science. As an incredibly productive scholar, he had a career that spanned more than half a century; his first book was published in 1950, his last in 2007, at the age of 92. As a political scientist, he was respected even by those who were critical of his works. This theoretical significance and profound influence is reflected in the collection of chapters in this volume, which reads like a who's who of the contemporary US political science scene. His co-author Bruce Stinebrickner documents the evolution of his and Dahl's seminal text *Modern Political Analysis* and how it became the standard introduction to American political science for nearly fifty years. Katharine MacKinnon's chapter is of significance for its insights upon Dahl and also represents a succinct statement of a feminist reading and critique of contemporary political science. Steven Lukes contributes a highly concise statement of the difference between one-dimensional and three-dimensional power. This work will be a standard reference work for any researchers or those interested in the work of Robert Dahl among both established academics and students. This book was originally published as a special issue of the *Journal of Political Power*.

Experiencing ACT from the Inside Out Dennis Tirsch, Laura R. Silberstein-Tirsch, R. Trent Codd, Martin J. Brock, M. Joann Wright, 2019-09-03. This book invites therapists to enhance their effectiveness from the inside out using self-practice and self-reflection. It leads therapists through a structured three-stage process of focusing on a personal or professional issue they want to change, practicing therapeutic techniques on themselves, self-practice, and reflecting on the experience. Self-reflection research supports the unique benefits of SP-SR for providing insights and skills not readily available through more conventional training procedures. The approach is suitable for therapists at all levels of experience, from trainees to experienced supervisors.

The Confidence Game Alex Berg, 2023-02-18. She's a thief. He's a grifter. Game on. For Natalia Levin, life as a professional art thief is everything she hoped it would be. She travels the world; the pay is fantastic, and she gets to work in sweet, sweet solitude. But when a rival crew reaches out about joining forces to steal the one painting she's always dreamed of, that's an invitation she can't resist. Natalia figures it'll be easy to keep the new crew at arm's length, but her plans hit a snag when she meets their leader, smooth-talking grifter Diego Cabrera. He's a liar, a con man, and too slick for his own good, but he's beguiling and handsome and one hell of a storyteller. Too bad she's going to screw him over anyway. But as Diego cranks up the charm, Natalia's finding it harder and harder to keep up her charade. Not because she can't outwit him, but because she's starting to do the one thing she told herself she'd never do: trust him. With passions igniting, Natalia is starting to realize she's made a terrible mistake: she put her heart on the line while playing a confidence game.

The Drama of History Kristin Gjesdal, 2021. The Drama of History plumbs the rich relationship between drama and philosophy. Kristin Gjesdal offers a lively and accessible discussion of the philosophical aspects of Henrik Ibsen's work. She shows how well-known nineteenth-century philosophers such as Hegel and Nietzsche develop their thoughts in interaction with the dramatic arts. At the heart of this interaction is a shared interest in exploring the existential condition of human life as lived.

and experienced in history In this sense Gjesdal engages philosophy's capacity beyond its narrow academic confines

Baltic Light Catherine Johnston, Helmut Borsch-Supan, Helmut R. Leppien, National Gallery of Canada, Kasper Monrad, 1999-01-01 During the first half of the nineteenth century Danish and German artists studying in Paris and Rome brought back the concept of plein air painting and began to paint out of doors on their native soil They introduced a whole new aesthetic that was sensitive to the light and atmospheric conditions peculiar to the north especially during the long summer days This beautiful book focuses on the painters and paintings of this period particularly Caspar David Friedrich who produced many fine works before he developed the romantic style for which he is better known The book presents topographical landscapes panoramas and some group and individual portraits that often include a window from which light emanates Essays by eminent authorities discuss various aspects of the Danish and North German open air movement They note for example that the paintings reflect a direct view of nature devoid of the intellectual and moral overtones of the neoclassical paintings that preceded them They also discuss the fact that Schleswig Holstein was closely allied with Denmark until 1848 and this favored many Hamburg and north German artists studying at the Academy in Copenhagen where painting out of doors was encouraged In addition to the essays the book presents 108 works by twenty three artists catalogue entries for each work and a biography of each artist The Stark family.
