Reflections On Native Newcomer Relations Selected Essays:

Reflections on Native-Newcomer Relations J.R. Miller, 2004-12-15 The twelve essays that make up *Reflections on Native Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history J R Miller The collection comprising pieces that were written over a period spanning nearly two decades deals with the evolution of historical writing on First Nations and M'tis methodological issues in the writing of Native newcomer history policy matters including residential schools and linkages between the study of Native newcomer relations and academic governance and curricular matters Half of the essays appear here in print for the first time and all use archival published and oral history evidence to throw light on Native Newcomer relations Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time based on the reasons the two parties have had for interacting The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful and it improves when the two parties have positive reasons for cooperation *Reflections on Native Newcomer Relations* opens up for discussion a series of issues in Native newcomer history It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions as well as those in the author's own thinking as he matured as a scholar

Empire from the Margins Gordon L. Heath, 2017-11-29 At the beginning of the twentieth century there were a number of smaller religious bodies that sought to develop religious and national identity on the margins something especially difficult when the nation was at war in South Africa This book examines rich and varied extant sources that provide helpful windows into the wartime experience of Canada's religious minorities Those groups on the margins experienced internal struggles and external pressures related to issues of loyalty and identity How each faith tradition addressed those challenges was shaped by their own dominant personalities ethnic identity history tradition and theological convictions Responses were fluid divided and rarely unanimous Those seeking to address such issues not only had to deal with internal expectations and tensions but also construct a public

response that would satisfy often hostile and vocal external critics. Some positions evolved over time leading to new identities, loyalties and trajectories. In all cases being on the margins meant dealing with two dominant national and imperial narratives: English or French, both bolstered respectively by powerful Anglo-Saxon Protestantism or French-Quebec Catholicism. The chapters in this book examine how those on the margins sought to do just that. *Canada's Other Red Scare* Scott Rutherford, 2020-12-17

Indigenous activism put small town northern Ontario on the map in the 1960s and early 1970s. Kenora, Ontario was home to a four hundred person march popularly called Canada's First Civil Rights March and a two month long armed occupation of a small lakefront park. Canada's Other Red Scare shows how important it is to link the local and the global to broaden narratives of resistance. In the 1960s it is a history not of isolated events closed off from the present but of decolonization as a continuing process. Scott Rutherford explores with rigour and sensitivity the Indigenous political protest and social struggle that took place in Northwestern Ontario and Treaty 3 territory from 1965 to 1974. Drawing on archival documents, media coverage, published interviews, memoirs and social movement literature as well as his own lived experience as a settler growing up in Kenora, he reconstructs a period of turbulent protest and the responses it provoked, from support to disbelief to outright hostility. Indigenous organizers advocated for a wide range of issues: from better employment opportunities to the recognition of nationhood, by using such tactics as marches, cultural production, community organizing, journalism and armed occupation. They drew inspiration from global currents: from black American freedom movements to Third World decolonization, to challenge the inequalities and racial logics that shaped settler colonialism and daily life in Kenora. Accessible and wide reaching, Canada's Other Red Scare makes the case that Indigenous political protest during this period should be thought of as both local and transnational, an urgent exercise in confronting the experience of settler colonialism in places and moments of protest when its logic and acts of dispossession are held up like a mirror. First Nations, First Thoughts Annis May Timpson, 2010-01-01

Countless books and articles have traced the impact of colonialism and public policy on Canada's First Nations, but few have explored the impact of Aboriginal thought on public discourse and policy development in Canada. First Nations First Thoughts brings together Aboriginal and non-Aboriginal scholars who cut through the prevailing orthodoxy to reveal Indigenous thinkers and activists as a pervasive presence in diverse political, constitutional and cultural debates and arenas, including urban spaces, historical texts, public policy and cultural heritage preservation. This innovative thought provoking collection contributes to the decolonization process by encouraging us to imagine a stronger, fairer Canada in which Aboriginal self government and expression can be fully realized. **Alan Bowker's Canadian Heritage 2-Book Bundle** Alan Bowker, 2015-12-07

Indigenous Women, Work, and History Mary Jane Logan McCallum, 2014-05-02 When dealing with Indigenous women's history we are conditioned to think about women as private sphere figures circumscribed by the home the reserve and the community Moreover in many ways Indigenous men and women have been cast in static pre modern and one dimensional identities and their twentieth century experiences reduced to a singular story of decline and loss In *Indigenous Women Work and History* historian Mary Jane Logan McCallum rejects both of these long standing conventions by presenting case studies of Indigenous domestic servants hairdressers community health representatives and nurses working in modern Native ways between 1940 and 1980 Based on a range of sources including the records of the Departments of Indian Affairs and National Health and Welfare

interviews and print and audio visual media McCallum shows how state run education and placement programs were part of Canada's larger vision of assimilation and extinguishment of treaty obligations Conversely she also shows how Indigenous women link these same programs to their social and cultural responsibilities of community building and state resistance By placing the history of these modern workers within a broader historical context of Aboriginal education and health federal labour programs post war Aboriginal economic and political developments and Aboriginal professional organizations McCallum challenges us to think about Indigenous women's history in entirely new ways **Métis Rising** Yvonne Boyer, Larry Chartrand, 2022-04-30 Métis Rising draws on a remarkable cross section of perspectives to tell the histories and stories of people from richly varied backgrounds demonstrating that there is no single Métis experience only a common sense of belonging and a commitment to justice The contributors to this unique collection most of whom are Métis themselves examine often neglected aspects of Métis existence They talk about the arduous journey to rebuild the Métis nation from a once marginalized and defeated people their accounts ranging from personal reflections on identity to tales of advocacy against poverty and poor housing and for the recognition of Métis rights Métis Rising is an extraordinary work that exemplifies how contemporary Métis identity has been forged into a force to be reckoned with Residential Schools and Reconciliation J.R.
