Race, Nation, and Refuge Doug Coulson, 2017-10-01 From 1870 to 1940 racial eligibility for naturalization in the United States was limited to free white persons and aliens of African nativity and persons of African descent and many interpreted these restrictions to reflect a policy of Asian exclusion based on the conclusion that Asians were neither white nor African Because the distinction between white and Asian was considerably unstable however those charged with the interpretation and implementation of the naturalization act faced difficult racial classification questions Through archival research and a close reading of the arguments contained in the documents of the US Bureau of Naturalization especially those documents that discussed challenges to racial eligibility for naturalization Doug Coulson demonstrates that the strategy of foregrounding shared external threats to the nation as a means of transcending perceived racial divisions was often more important to racial classification than legal doctrine He argues that this was due to the rapid shifts in the nation s enmities and alliances during the early twentieth century and the close relationship between race nation and sovereignty When

Peace Is Not Enough Atalia Omer, 2013-06-03 The state of Israel is often spoken of as a haven for the Jewish people a place rooted in the story of a nation dispersed wandering the earth in search of their homeland Born in adversity but purportedly nurtured by liberal ideals Israel has never known peace experiencing instead a state of constant war that has divided its population along the stark and seemingly unbreachable lines of dissent around the relationship between unrestricted citizenship and Jewish identity By focusing on the perceptions and histories of Israel s most marginalized stakeholders Palestinian Israelis Arab Jews and non Israeli Jews Atalia Omer cuts to the heart of the Israeli Arab conflict demonstrating how these voices provide urgently needed resources for conflict analysis and peacebuilding Navigating a complex set of arguments about ethnicity boundaries and peace and offering a different approach to the renegotiation and reimagination of national identity and citizenship Omer pushes the conversation beyond the bounds of the single narrative and toward a new and dynamic concept of justice one that offers the prospect of building a lasting peace **Reimagining the Nation-State**

Jim Mac Laughlin, 2001-02-20 This book assesses competing modes of nation building and nationalism through a critical reappraisal of the works of key theorists such as Benedict Anderson and Eric Hobsbawm Exploring the processes of nation

building from a variety of ethnic and social class contexts it focuses on the contested terrain within which nationalist ideologies are often rooted Mac Laughlin offers a theoretical and empirical analysis of nation building taking as a case study the historical connections between Ireland and Great Britain in the clash between big nation historic British nationalism on the one hand and minority Irish nationalism on the other Locating the origins of the historic nation in the seventeenth and eighteenth centuries Mac Laughlin emphasises the difficulties and specificity of minority nationalism in the nineteenth century In so doing he calls for a place centred approach which recognises the symbolic and socio economic significance of territory to the different scales of nation building Exploring the evolution of Irish Nationalism Reimagining the Nation State also shows how minority nations can challenge the hegemony of dominant states and threaten the territorial integrity of historic nations

Sandino's Nation Stephen Henighan, 2014-04-01 Ernesto Cardenal and Sergio Ram rez are two of the most influential Latin American intellectuals of the late twentieth and early twenty first centuries Addressing Nicaragua s struggle for self definition from divergent ethnic religious generational political and class backgrounds they constructed distinct yet compatible visions of national history anchored in a reappraisal of the early twentieth century insurgent leader Augusto C sar Sandino During the Sandinista Revolution of 1979 90 Cardenal appointed Nicaragua s minister of culture became one of the most provocative and internationally recognized figures of liberation theology while Ram rez a member of the revolutionary

junta and later elected vice president of Nicaragua emerged as an authoritative figure for third world nationalism But before all else the two were groundbreaking creative writers Through a close reading of the works by Nicaragua s best known and most prolific modern authors Sandino s Nation studies the construction of Nicaraguan national identity during three distinct periods of the country s recent history before during and after the 1979 90 revolution Stephen Henighan offers rigorous textual analyses of poems memoirs essays and novels interwoven with a sharply narrated history of Nicaragua The only comprehensive study of the careers of Cardenal and Ram rez Sandino s Nation is essential to understanding transformations to both Nicaragua and the role of the writer in Latin America **Language and Minority Rights** Stephen May,2013-06-17

The second edition addresses new theoretical and empirical developments since its initial publication including the burgeoning influence of globalization and the relentless rise of English as the current world language May s broad position however remains largely unchanged He argues that the causes of many of the language based conflicts in the world today still lie with the nation state and its preoccupation with establishing a common language and culture via mass education The solution he suggests is to rethink nation states in more culturally and linguistically plural ways while avoiding at the same time essentializing the language identity link This edition like the first adopts a wide interdisciplinary framework drawing on sociolinguistics applied linguistics sociology political theory education and law It also includes new discussions of cosmopolitanism globalization the role of English and language and mobility highlighting the ongoing difficulties faced by minority language speakers in the world today **Wake Up, America: Unmasking the Trump Presidency--A Nation Enclosed in an Open Air Prison** Michael Veluppillai,2024-09-16 Wake Up America Unmasking the Trump Presidency A Nation Enclosed in an Open Air Prison serves as a piercing insightful dissection of one of the most controversial periods in American history It brings a critical eye to the dichotomy at the heart of the Trump administration an immigrant son who became a fortress building president and a First Lady whose ambiguous citizenship journey stands in stark contrast to her husband s stringent immigration policies This book explores the deep ironies embedded within Donald Trump s presidency examining how a leader born from immigrants imposed policies that undercut the very essence of America s foundational mythos a nation built by and for immigrants At the same time Foster delves into the contentious debate surrounding Melania Trump s path to US citizenship raising questions about fairness transparency and the double standards that appear to pervade the upper echelons of power Through meticulous research and compelling narratives it exposes how the Trump administration s actions created a paradoxical open air prison a country where liberty is a headline yet often a hollow promise The book interlaces analysis with real life impacts showing how these policies have reshaped American society and how they continue to influence the national conversation Wake Up America is more than a political critique it is a clarion call to all citizens to reconsider what it means to be American in the modern world urging a recommitment to the ideals of diversity openness and justice This thought provoking work is essential for anyone seeking to understand the complexities

Cultural Grammars of Nation, Diaspora, and Indigeneity in Canada Christine Kim, Sophie McCall, Melina Baum Singer, 2012-05-09 Cultural Grammars of Nation Diaspora and Indigeneity in Canada considers how the terms of critical debate in literary and cultural studies in Canada have shifted with respect to race nation and difference In asking how Indigenous and diasporic interventions have remapped these debates the contributors argue that a new cultural grammar is at work and attempt to sketch out some of the ways it operates The essays reference pivotal moments in Canadian literary and cultural history and speak to ongoing debates about Canadian nationalism postcolonialism migrancy and transnationalism Topics covered include the Asian race riots in Vancouver in 1907 the cultural memory of internment and dispersal of Japanese Canadians in the 1940s the politics of migrant labour and the domestic labour scheme in the 1960s and the trial of Robert Pickton in Vancouver in 2007 The contributors are particularly interested in how diaspora and indigeneity continue to contribute to this critical reconfiguration and in how conversations about diaspora and indigeneity in the Canadian context have themselves been transformed Cultural Grammars is an attempt to address both the interconnections and the schisms between these multiply fractured critical terms as well as the larger conceptual shifts that have occurred in response to national and postnational arguments
