The Gospel to the Romans [electronic resource] Brian J. The Etruscans Raffaele D'Amato, Andrea Salimbeni, 2018-09-20 Ancient Rome had deep roots in the Villanovan culture that we call today the Etruscans Their long lived civilization can be traced to 900

750 BC in north west Italy They were a sea faring people trading with and competing against Greek and Phoenician peoples including the Carthaginians They were also a great land based power especially in the Classical period where they expanded their power north into the Po Valley and south to Latium In the 6th century BC an Etruscan dynasty ruled Rome and their power extended southwards to the Amalfi coast In 509 BC the Romans rose up to expel their kings which began the long Etruscan twilight when their power was squeezed by the Samnites and most especially the Romans Drawing on archaeological evidence including warrior tombs paintings sculptures and fully illustrated throughout this study examines one of the early rivals to Ancient Rome

Ancient Rome Monica M. Bontty,2020-03-17 This book shares little known facts from and excerpts of primary source documents to correct popular misconceptions about Ancient Rome and to show how those misconceptions became widespread Roman personalities and history have always had a larger than life profile in American popular culture but most people think of this ancient civilization as merely decadent cruel and elitist Most of our stereotypical conceptions of the empire and its people however are wrong This book corrects popular misconceptions about the ancient Roman world thus making ancient history relevant and accessible to modern readers and allowing modern critics of American politics and society to draw accurate comparisons Each chapter discusses how a particular misconception developed spread and evolved into what we now believe to be the historical truth Topics discussed include crucifixion the destruction of Carthage Julius Caesar s last words and Roman hygiene Excerpts from primary source documents provide evidence of both the rise of the historical fictions and the truths behind the myths

The African Emperor Simon Elliott,2025-09-11 Septimius Severus was Rome s black emperor Born in the blistering heat of a North African spring in Leptis Magna AD 145 he died in the freezing cold of a northern British winter in York in AD 211 A giant of an emperor whose career can be counted in superlatives Severus was in power at the height of Rome s might He led the largest army to ever campaign in Britain comprising 50 000 men part of a Roman military establishment which peaked at 33 legions under his rule Born into the richest family in the richest part of the Roman Empire Severus monumentalised his rule across the empire He visited and often fought in every region Where he did he left a mighty legacy in the built environment for example in Rome where much of the Forum Romanum and most of the imperial palaces are Severan In North Africa his hometown of Leptis Magna is all Severan as are the Roman cities at the Atlas mountains In London the land walls that still define the City s Square Mile were delineated under his rule Visitors to the under croft at York Minster can stand where he died Septimius Severus was one of the greatest warrior emperors a hard man who almost died in battle several times and whose attitude is reflected in his deathbed advice to two sons Be of one mind with your family enrich the soldiers and despise the rest

Anticipatory Environmental (Hi)Stories from Antiquity to the Anthropocene Christopher Schliephake,Evi Zemanek,2023-02-06 Anticipatory Environmental Hi Stories from Antiquity to the Anthropocene studies the interplay of environmental perception and the way societies throughout history have imagined the future state of nature and the

environments in which coming generations would live What sorts of knowledge were and are involved in outlining future environments What kinds of texts and narrative strategies were and are developed and modified over time How did and do scenarios and narratives of the past shape hi stories of the future This book answers these questions from a diachronic as well as a cross cultural perspective By looking at a diverse range of historical evidence that transcends stereotypical utopian and dystopian visions and allows for nuanced insights beyond the dichotomous reservoir of pastoral motifs and apocalyptic narratives the contributors illustrate the multifaceted character of environmental anticipation across the ages

Inconsistency in Flavian Epic Attila Ferenczi,Dániel Kozák,Andrew Zissos,2025-01-09 This collection of essays explores the phenomenon of inconsistency in the three major Latin epics of the Flavian Age 69 96 CE Valerius Flaccus *Argonautica* Statius *Thebaid* and Silius Italicus *Punica* The Introduction provides a detailed theoretical foundation that accounts for inconsistency both as an objective effect inherent in narrative content and as a more subjective one involving style and subject matter It is followed by eight chapters by leading international experts on the three poems in question The rich analyses of these contributors demonstrate that inconsistency is often a strategic device deployed by the Flavian epicists to achieve specific effects so that its careful study yields precious insights into their respective artistic thematic and ideological agendas

Intelligence Activities in Ancient Rome Rose Mary Sheldon,2004-12-16 Professor Sheldon uses the modern concept of the intelligence cycle to trace intelligence activities in Rome whether they were done by private citizens the government or the military Examining a broad range of activities the book looks at the many types of espionage tradecraft that have left their traces in the ancient sources intelligence and counterintelligence gathering covert action clandestine operations the use of codes and ciphers Dispelling the myth that such activities are a modern invention Professor Sheldon explores how these ancient spy stories have modern echoes as well What is the role of an intelligence service in a free republic When do the security needs of the state outweigh the rights of the citizen If we cannot trust our own security services how safe can we be Although protected by the Praetorian Guard seventy five percent of Roman emperors died by assassination or under attack by pretenders to his throne Who was guarding the guardians For students of Rome and modern social studies too this will provide a fascinating read
