Rainey, 2001-07-18 Public management involves leading coordinating and stimulating public agencies and programs to deliver excellent performance Research and practice of public management have developed rapidly in recent years drawing on the fields of public policy public administration and business management In carrying out their crucial roles in shaping what government delivers public managers today must confront daunting challenges imposed by shifting policy agendas constrained financial resources combined with with constant public demands for a rich array of public services and increasing interdependence among public private and third sector institutions and actors At the same time these challenges and other developments offer exciting opportunities for improving knowledge and practice in public management for the benefit of everyone In this volume leading scholars contribute advances in the theory methods and practice in this burgeoning field The selections address four key topics The nature and impact of public management Creative new methods for public management research Reform reinvention innovation and change New models and frameworks for understanding and improving public management **The New Case for Bureaucracy** Charles T. Goodsell, 2014-02-28 Charles Goodsell has long taken the position that U S bureaucracy is neither a generalized failure nor sinkhole of waste as mythologized by anti government ideologues Rather it is one of the most effective and innovate sets of administrative institutions of any government in the world today Indispensable to our democracy it keeps government reliable and dependable to the citizens it serves However The New Case for Bureaucracy goes beyond empirically verifying its quality Now an extended essay written in a conversational tone Goodsell expects readers to form their own judgments At a time when Congress is locked in partisan and factional deadlock he argues for the increased importance of bureaucrats and discusses how federal agencies must battle to keep alive in terms of resources and be strong enough to retain the integrity of their missions **The U.S. Coast Guard** ,1982 *Agency Merger and Bureaucratic Redesign* Karen M. Hult, 2010-11-23 Since the expansion of public programs in the 1960s charges of bureaucratic inefficiency unresponsiveness and red tape have been rampant The response has often been extensive reorganization in an effort to change the source of control carry out specific missions and to achieve greater inter agency cooperation Karen M Hult examines why these restructurings often fail through three case studies the U S Department of Housing and Urban Design HUD the Minnesota Department of Energy Planning and Development and the Minneapolis Community Development Agency Hult s study assesses the usefulness of mergers and reorganizations as a policy tool and offers a valuable contribution to the study of public management and organization design *US Defense Politics* Harvey M. which the United States prepares for war the authors demonstrate how political and organizational interests determine US defense policy and warn against over emphasis on planning centralization and technocracy Emphasizing the process of defense policy making rather than just the outcomes of that process US Defense Politics departs from the traditional style of many other textbooks Designed to help students understand the practical side of American national security policy the book examines the following key themes US grand strategy who joins America s military how and why weapons are bought the management of defense public attitudes toward the military and casualties the roles of the president and the Congress in controlling the military the effects of 9 11 and the Global War on Terror on security policy homeland security government reorganizations and intra and inter service relations The third edition will be essential reading for students of US defense politics national security policy and homeland security and highly recommended for students of US foreign policy public policy and public administration Selected Library Acquisitions United States.
