Das Schweizer Buch ,2006 *Obesity in Chilhood and Adolescence* William H. Dietz,2001 Handbook of Childhood and Adolescent Obesity Elissa Jelalian,Ric G. Steele,2008-12-10 Within the past two generations alone child and adolescent obesity has more than doubled for some age groups and tripled for others Consequently the extraordinary number of school age children now being diagnosed with what were once considered adult onset disorders hypertension type 2 diabetes high cholesterol and related cardio pulmonary conditions has catapulted pediatric obesity to the forefront of national attention Yet even as recognition grows reliable scientifically tested information and methods often get lost in the media crush of quick fixes and hyped up news stories Now in one comprehensive easy to access volume the Handbook of Childhood and Adolescent Obesity reveals the scope of the problem in terms of its psychological burden its health consequences and the available prevention and treatment options with the most current empirical and clinical knowledge available This volume provides readers not only raw data but also a framework for translating findings into effective efficient practice assessment treatment and prevention This volume Emphasizes developmental considerations the specific information most relevant to toddlers school age children and adolescents Examines sociocultural and economic risk factors and their attendant treatment issues Addresses the particular challenges of treating overweight children with psychiatric comorbidities Discusses weight management intervention strategies in home school and community settings Outlines model intervention programs for overweight obese children and youth Features special chapters on emerging topics of interest including behavioral genetics binge eating technology based approaches to weight control and the concept of the obesigenic environment The Handbook of Childhood and Adolescent Obesity is a vital reference for child psychologists and psychiatrists as well as school and counseling psychologists social workers educators and public health and medical professionals **Metabolic Syndrome and Obesity in Childhood and Adolescence** W. Kiess,M. Wabitsch,C. Maffeis,A. M. Sharma,2015-01-27 Despite the fact that the prevalence of obesity in early childhood has been stable and is no longer increasing in many developed and industrialized countries the incidence of both obesity and full blown metabolic syndrome in children and adolescents is still very high Obesity is a major disease burden in all societies and needs to be prevented early in life New approaches are eagerly sought and absolutely necessary This book presents a comprehensive and state of the art summary of current and new knowledge in this critical field Crucial issues such as nutrition and genetics are described in detail In addition new ideas such as e health and the consequences of urban living conditions are explored Last but not least modern treatment concepts and prevention even at an early age are competently discussed Offering a valuable update on new developments in obesity research and the treatment in children and adolescents this book is essential reading for all pediatricians and health care professionals who look after young patients on a regular basis **Child and Adolescent Obesity** Walter Burniat,Tim J.

Cole, Inge Lissau, Elizabeth M. E. Poskitt, 2006-06-01 This book addresses the ever increasing problem of obesity in children and adolescents the long term health and social problems that arise from this and approaches to prevention and management It covers all aspects of obesity from epidemiology and prevention to recent developments in biochemistry and genetics and to the varied approaches to management which are influenced by social and clinical need A foreword by William Dietz and a forward looking future perspectives conclusion by Philip James embrace an international team of authors all with first hand experience of the issues posed by obesity in the young

Challenges and Opportunities for Change in Food Marketing to Children and Youth Institute of Medicine, Food and Nutrition Board, Standing Committee on Childhood Obesity

Prevention, 2013-06-14 The childhood obesity epidemic is an urgent public health problem The most recent data available show that nearly 19 percent of boys and about 15 percent of girls aged 2-19 are obese and almost a third of U.S. children and adolescents are overweight or obese Ogden et al 2012 The obesity epidemic will continue to take a substantial toll on the health of Americans In the midst of this epidemic children are exposed to an enormous amount of commercial advertising and marketing for food In 2009 children aged 2-11 saw an average of more than 10 television food ads per day Powell et al 2011 Children see and hear advertising and marketing messages for food through many other channels as well including radio movies billboards and print media Most notably many new digital media venues and vehicles for food marketing have emerged in recent years including Internet based advergames couponing on cell phones and marketing on social networks and much of this advertising is invisible to parents The marketing of high calorie low nutrient foods and beverages is linked to overweight and obesity A major 2006 report from the Institute of Medicine IOM documents evidence that television advertising influences the food and beverage preferences requests and short term consumption of children aged 2-11 IOM 2006 Challenges and Opportunities for Change in Food Marketing to Children and Youth also documents a body of evidence showing an association of television advertising with the adiposity of children and adolescents aged 2-18 The report notes the prevailing pattern that food and beverage products marketed to children and youth are often high in calories fat sugar and sodium are of low nutritional value and tend to be from food groups Americans are already overconsuming Furthermore marketing messages that promote nutrition healthful foods or physical activity are scarce IOM 2006 To review progress and explore opportunities for action on food and beverage marketing that targets children and youth the IOM's Standing Committee on Childhood Obesity Prevention held a workshop in Washington DC on November 5 2012 titled New Challenges and Opportunities in Food Marketing to Children and Youth
