TRATADO DE DERECHO ADMINISTRATIVO : PARTE GENERAL Agustín A. Gordillo, 2004 Las obras sociales en la Argentina Andrés Fescina, 2004 **Social Security Programs Throughout the World**, 1991 *La educación médica de postgrado en la Argentina: el desafío de una nueva práctica educativa* OPS., 2002 **Growth Model, State Social Intervention and Labour Regulation** Rosalía Cortés, Adriana Marshall, 1991 **Dignifying Argentina** Eduardo Elena, 2011-08-21 During the mid twentieth century Latin American countries witnessed unprecedented struggles over the terms of national sovereignty civic participation and social justice Nowhere was this more visible than in Peronist Argentina 1946 1955 where Juan and Eva Perón led the region's largest populist movement in pursuit of new political hopes and material desires Eduardo Elena considers this transformative moment from a fresh perspective by exploring the intersection of populism and mass consumption He argues that Peronist actors redefined national citizenship around expansive promises of a vida digna dignified life which encompassed not only the satisfaction of basic wants but also the integration of working Argentines into a modern consumer society Drawing on documents such as the correspondence between Peronist sympathizers and authorities Elena sheds light on the contest over the vida digna He shows how the consumer aspirations of citizens overlapped with Peronist paradigms of state led development but not without generating great friction among allies and opposition from diverse sectors of society Consumer practices encouraged intense public scrutiny of class and gender comportment and everyday objects became charged with new cultural meaning By providing important insights on why Peronism struck such a powerful chord Dignifying Argentina situates Latin America within the broader history of citizenship

and consumption at midcentury and provides innovative ways to understand the politics of redistribution in the region today

Planes de beneficios en salud de América Latina Ricardo Bitrán, Úrsula Giedion, Ignez Tristao, Liliana Escobar, Oscar Cañón, Silvia Molins, Lucía Alonso, Jorge Fernández, Giota Panopoulou, Eduardo González-Pier, A. Lorena Prieto, Camilo Cid, Vilma Montañez, Martín Sabignoso, Luis Bolaño Prado, 2014-05-23 Garantizar el derecho a la salud en igualdad de condiciones para todos es una meta hacia la que toda sociedad quiere avanzar. Sin embargo, en una región tan desigual como América Latina y el Caribe la cobertura universal es un objetivo importante para la mayoría de los países. Sin embargo, el contexto para lograr una cobertura universal es difícil cada día aumenta la presión sobre el gasto en salud. Entonces, ¿qué incluir o no incluir en un plan de beneficios en salud?

Argentina, 1993-01-01 Annotation Argentina has reformed its public finance system and reversed years of economic decline and deficit spending. This study recommends policy options to speed the already impressive progress. These options would expand the ambitious reform program already under way. This study shows how to sustain balanced public finances over the medium term. It describes ways to sustain price stability and economic growth while providing a cushion against unexpected downturns. Also examined are ways to improve social services while reducing the size of government. Researchers discuss key reforms that could boost the fiscal surplus by as much as 1.4 percent of gross domestic product. They look at ways to build tax revenues, reduce provincial finances, and make social security more equitable. They review methods to cut defense spending and revive a moribund education system. Additional policy options offered are reforms for housing and welfare programs and pension fund investments. The study suggests ways to improve the legal framework for a stronger central bank. Also reviewed are ways to eliminate unnecessary administrative agencies and to privatize public enterprises. The government's new health insurance program is examined. This program offers universal coverage. It lets contributors choose providers and includes subsidies for those who can't pay. It also requires a minimum package of health care at a set price.

Fábrica de resistencias y recuperación social María Amalia Gracia, 2013-10-31 Las acciones de diversos grupos de trabajadoras y trabajadores argentinos que lograron darse una salida ante situaciones de profunda desesperación provocadas por el cierre, abandono o quiebra de las empresas donde habían trabajado durante años son tratados en este volumen. Sus páginas muestran en forma sencilla y bien documentada un fenómeno vigente que ha ensanchado el campo de lo posible y tiene mucho que decir sobre las acciones políticas y económicas de los trabajadores en un mundo en el que una y otra vez los pueblos se movilizan para protegerse de los choques económicos ante la insistente pretensión del sistema capitalista y sus defensores de separar la esfera económica de la sociedad.
