Patient Compliance With And Attitudes Towards Health Buddy:

Patient Compliance With and Attitudes Towards Health Buddy, 2000 This report discusses patient acceptance of a device called Health Buddy TM Placed in the home of a chronically ill patient in our example one with congestive heart failure or CHF this device enables two way communication between the patient and a care provider in a case management program Health Hero Inc the company that developed the Health Buddy TM and offers the communication service based on it writes The service is designed to give care providers the frequent communication and baseline data that yield more opportunities to identify potentially serious situations sooner help caregivers focus their attention on those who need it most and enable them to motivate and educate their patients Communication occurs via Health Buddy TM when the patient responds to a short automated survey of perhaps a dozen questions This is in contrast to most case management programs where the case manager usually a nurse takes the initiative by telephoning the patient Accordingly the patient s acceptance of Health Buddy TM and his or her willingness to use it daily is crucial to its success This report should be of interest to any who contemplate establishing case management programs for chronically ill patients Examples may be found in hospitals independent practice associations and health maintenance organizations it should also interest those who like Health Hero offer services in support of case management programs Funding for this work was provided by Health Hero *Patient Compliance with and Attitudes Towards Health Buddy* James H. Bigelow, Shan Cretin, Matt Solomon, Shin-Yi Wu, Julie C. Cherry, Herb Cobb, Michael O'Connell, 2000 This report addresses patient acceptance of a new device called a Health Buddy used to communicate between patients chronically ill with congestive heart failure and a health care provider usually a nurse in a case management programme **Journal of Rehabilitation Research & Development**, 2010 **Journal of Rehabilitation Research and Development**, 2010 Wearable Technologies Jesús Hamilton Ortiz, 2018-10-03 This edited volume Wearable Technologies is a collection of reviewed and relevant research chapters offering a comprehensive overview of recent developments in the field of computer engineering The book comprises single chapters authored by various researchers and edited by an expert active in the computer engineering research area All chapters are complete in themselves but united under a common research study topic This publication aims at providing a thorough overview of the latest research efforts Advances in Human Factors in Wearable Technologies and Game Design Tareq Ahram, Christianne Falcão, 2017-06-13 This book focuses on the human aspects of wearable technologies and game design which are often neglected It shows how user centered practices can optimize wearable experience thus improving user acceptance satisfaction and engagement towards novel wearable gadgets It describes both research and best practices in the applications of human factors and ergonomics to sensors wearable technologies and game design innovations as well as results obtained upon integration of the wearability principles identified by various researchers for aesthetics affordance comfort contextual awareness customization ease of use ergonomics intuitiveness obtrusiveness information overload privacy

reliability responsiveness satisfaction subtlety user friendliness and wearability The book is based on the AHFE 2017 Conferences on Human Factors and Wearable Technologies and AHFE 2017 Conferences on Human Factors and Game Design held on July 17-21, 2017 in Los Angeles, California, USA and addresses professionals, researchers, and students dealing with the human aspects of wearable, smart, and/or interactive technologies and game design research **Persuasive Technology** Wijnand IJsselstein, Yvonne de Kort, Cees Midden, Berry Eggen, Elise van den Hoven, 2006-05-05 This book constitutes the refereed proceedings of the First International Conference on Persuasive Technology for human well-being. PERSUASIVE 2006. The 31 revised full papers presented together with 1 introductory paper are organized in topical sections on psychological principles of persuasive technology, persuasive technology theory and modelling, design applications and evaluations, ethics of persuasive technology, persuasive gerontechnology, and ambient intelligence and persuasive technology.

Handbook of Psychology and Health, Volume IV Shelley E. Taylor, Jerome E. Singer, Andrew Baum, 2020-09-10 Originally published in 1984 the study of psychological aspects of health was a rapidly expanding enterprise Most of the contributors to this volume were trained as social psychologists or by social psychologists Some have been more applied in their focus or on the edge of several fields All however share a common approach focusing on the individual as he or she is buffeted about by social forces and copes with these forces All consider situational and psychological factors in the determination of behavior emotion or cognition and all apply their expertise to the study of health related issues The grouping of the chapters in this volume by the authors subspecialty social psychology is a somewhat unconventional method of clustering Ordinarily the materials presented here would be published in journals or texts concerned with behavior or psychosocial in health and medicine or in specialty publications dealing with a particular disease or health issue That clustering of articles is functional in providing information to those most likely to utilize it but it diffuses the origin and background of the studies These chapters speak to the diversity of health issues that are amenable to successful social psychological analysis

Insights in Pediatric Endocrinology: 2024 Sally Radovick, Madhusmita Misra, 2025-09-30 We have now entered the third decade of the 21st Century and especially in the last years the achievements made in the field of Pediatric Endocrinology have been exceptional leading to major advancements in caring for children with endocrine disorders The goal of this special edition Research Topic is to highlight the progress made in
