**Rebel Nation** Christopher Stires, 2015-08-23 The truth grows poisonous in the dark In a nation where the Confederacy is a world power shots ring out and a famed civil rights leader is murdered McKenna Alexander is an investigative reporter who isn't afraid to challenge those in power and something about this assassination screams conspiracy As she digs deeper she begins to uncover an ugly secret that began during the Second World War and is only now coming to fruition As she races to expose the conspirators they race to ensure her permanent silence and only her despised ex husband is willing to help her stay alive

**Women Suicide Bombers** V. G. Julie Rajan, 2011-08-26 This book offers an evaluation of female suicide bombers through postcolonial Third World feminist and human rights framework drawing on case studies from conflicts in Palestine Sri Lanka and Chechnya among others Women Suicide Bombers explores why cultural media and political reports from various geographies present different information about and portraits of the same women suicide bombers The majority of Western media and sovereign states engaged in wars against groups deploying bombings tend to focus on women bombers abnormal mental conditions their physicality for example their painted fingernails or their beautiful eyes their sexualities and the various ways in which they have been victimized by their backward Third World cultures especially by Islam In contrast propaganda produced by rebel groups deploying women bombers cultures supporting those campaigns and governments of those nations at war with sovereign states and Western nations tend to project women bombers as mythical heroes in ways that supersedes the martyrdom operations of male bombers Many of the books published on this phenomenon have revealed interesting ways to read women bombers subjectivities but do not explore the phenomenon of women bombers both inside and outside of their militant activities or against the patriarchal Orientalist and Western feminist cultural and theoretical frameworks that label female bombers primarily as victims of backward cultures In contrast this book offers a corrective lens to the existing discourse and encourages a more balanced evaluation of women bombers in contemporary conflict This book will be of interest to students of terrorism gender studies and security studies in general

**Confederate Nation** Michael Gray, 2005-10 Buy this book What you expected sterling praise from famous writers Sorry I can't provide that because I am forced to publish Confederate Nation myself Besides I suspect that many of those testimonials are just favors from friends who may not have even read the book And you never see a bad one right Let's face it the so called mainstream publishing industry has become constipated and reluctant to do much more than recycle the gorp of mediocre but established writers It is mostly unwilling to take a chance and discover new and exciting writers So I am taking matters in my own hands and getting Confederate Nation in front of readers Life is too short to wait for a break I'm going to try and make it happen now Is this a great book Probably not There are very few great books published any more But is it entertaining Yes Does it tell an odd story Certainly And I have always thought it should be a movie too With proper padding and makeup Kurt Russell could again be Elvis A man is ultimately his own father because he keeps growing if he's lucky and as he grows he's the only

person there every damn day to help get past the rough spots We become our own fathers and we should and we must raise ourselves even when a biological father has been there but even more so when one has not In the end we are solitary creatures We re alone The smart ones will make alliances and coalitions with others to make the trip sweeter and kinder but it s a long and solitary trip and in the end the partners we make can t get us across the last barrier That we have to do for ourselves Michael Loyd Gray     Ghost Writer Joe Fetting,     **The Unknown Nation** James Curran, Stuart Ward, 2010 The Unknown Nation is an illuminating history of Australia s putative search for national identity James Curran and Stuart Ward document how the receding ties of empire and Britishness posed an unprecedented dilemma as Australians lost their traditional ways of defining themselves as a people With the sudden disappearance in the 1960s and 1970s of the familiar coordinates of the British world Australians were cast into the realm of the unknown The task of remodelling the national image touched every aspect of Australian life where identifiably British ideas habits and symbols from foreign relations to the national anthem had grown obsolete But how to celebrate Australia s past achievements and present aspirations became a source of public controversy as community leaders struggled to find the appropriate language and rhetoric to invoke a new era     **Black Nationalism in the New World** Robert Carr, 2002-10-18 Provides new insight into the development of black nationalism by examining the intersection of African American and West Indian nationalist literatures     **Museum Rhetoric** M. Elizabeth Weiser, 2017-09-25 In today s diverse societies museums are the primary institutions within the public sphere in which individuals can both engage critical thought and celebrate community This volume uses the lens of rhetoric to explore the role these societal repositories play in establishing and altering cultural heritage and national identity Based on fieldwork conducted in over sixty museums in twenty two countries across six continents Museum Rhetoric explores how heritage museum exhibits persuade visitors to unite their own sense of identity with that of the broader civic society and how the latter changes in response Elizabeth Weiser examines what compels communities organizations and nations to create museum spaces and how museums operate as sites of both civic engagement and rhetorical persuasion Moving beyond rhetorical explorations of museums as memory sites she shows how they intentionally straddle the divides between style and content intellect and affect and unity and diversity and why their portrayal of the past matters to civic life and particularly studies of nationalism in the present and future Deeply researched and artfully argued Museum Rhetoric sheds light on the public impact of cultural and aesthetic heritage and opens avenues of inquiry for scholars of museum studies and public history     *Beyond Government* Craufurd D. Goodwin, 2019-03-07 Beyond Government examines how vigorous and truly pluralistic policy debate has evolved in both mature and emerging democracies and then suggests how it may be encouraged from within and sustained by outside assistance The contributors argue that a strong democracy thrives on a rich population of organizations and individuals that respond to the issues of the moment the concerns of groups within society that wish to be heard and the styles of interaction that seem most appropriate at any given time The volume has five parts In the first

three U S based authors present models of public debate from the American experience In the second part four authors two from Latin America and two from Eastern Europe chronicle and analyze the public debate that accompanied their countries transitions to democracy The third section includes chapters on specific areas of policy research the fourth shifts attention to the institutions that foster debate and the fifth assesses contributions to public debate from abroad by foundations and the corporate sector A concluding section looks ahead to challenges and opportunities
