Angelos Dimopoulos, 2011-12-08 Regulation of foreign investment is one of the most topical and controversial subjects in EU law and international investment law This book examines the legal foundations upon which EU investment policy is based addressing the legal practical and political concerns created by the establishment of a common investment policy Soft Power and US Foreign Policy Inderjeet Parmar, Michael Cox, 2010-03-12 Soft power is the use of attraction and persuasion rather than the use of coercion or force in foreign policy This title features a chapter outlining views on soft hard and smart power and offers a critique of the Bush administration's inadequacies It gives the various insights in to both soft power and the concept of power itself **Inequality, Globalization, and World Politics** Andrew Hurrell, Ngaire Woods, 1999 This text suggests that globalization is creating urgent problems for states and international institutions to deal with and that these organisations are increasingly unsuitable for handling such problems *International Trade Law on the 50th Anniversary of the Multilateral Trade System* Paolo Mengozzi, 1999 *The World Trade Organization and Trade in Services* Kern Alexander, Mads Tønnesson Andenæs, 2008 The World Trade Organisation plays the primary role in regulating international trade in goods services and intellectual property Traditionally international trade law and regulation has been analysed primarily from the trade in goods perspective Services are becoming an important competence for the WTO The institutional legal and regulatory influence of the General Agreement on Trade in Services GATS on domestic economic policymaking is attracting increasing attention in the academic and policymaking literature The growing importance of services trade to the global economy makes the application of the GATS to trade in services an important concern of international economic policy The GATS contains important innovations that build on the former GATT and existing WTO GATT trade regime for goods This book fills a void in the academic and policymaking literature by examining how the GATS governs international trade in services and its growing impact on the regulatory practice of WTO member states It offers a unique discussion of the major issues confronting WTO member states by analysing the GATS and related international trade issues from a variety of perspectives that include law political economy regulation and business Moreover the role of the WTO in promoting liberalised trade and economic development has come under serious strain because of the breakdown of the Doha Development Round negotiations The book analyses the issues in the Doha services debate with some suggested policy approaches that might help build a more durable GATS framework The book is a welcomed addition to the WTO literature and will serve as a point of reference for academics policymakers and practitioners **Britain and the Economic Problem of the Cold War** Till Geiger, 2017-07-05 Many accounts of British development since 1945 have attempted to discover why Britain experienced slower rates of economic growth than other Western European countries In many cases the explanation for this phenomenon has been attributed to the high level of defence spending that successive British post war governments adhered to Yet is it fair to assume that Britain's relative economic decline could have been prevented if policy makers had not spent so much on defence Examining aspects of the political economy and economic impact of British

defence expenditure in the period of the first cold war 1945 1955 this book challenges these widespread assumptions looking in detail at the link between defence spending and economic decline In contrast to earlier studies Till Geiger not only analyses the British effort within the framework of Anglo American relations but also places it within the wider context of European integration By reconsidering the previously accepted explanation of the economic impact of the British defence effort during the immediate post war period this book convincingly suggests that British foreign policy makers retained a large defence budget to offset a sense of increased national vulnerability brought about by a reduction in Britain s economic strength due to her war effort Furthermore it is shown that although this level of military spending may have slightly hampered post war recovery it was not in itself responsible for the decline of the British economy □□□□□□□□□□□□□□□□ □□

□,2020-05-07 XXIV **WTO und regional trade agreements (RTAs)** Rosario Then de Lammerskötter,2004 *The International Aluminium Cartel* Marco Bertilorenzi,2015-09-16 Aluminium was one of most cartelised industries in the international economic panorama of the 20th century Born following the discovery of electrolytic smelting process in 1886 this industry even in its infancy established a cartel which characterised its history until nearly 1980 Managers of the aluminium industry from various historical eras and countries shared the same vision about the development of their industry to keep prices as stable as possible in order to encourage expansions and to provide return on investments Price instability which characterised the trade of other commodities was unknown to the aluminium industry This book neither argues that cartels are fundamentally evil nor attempts to demonstrate that cartels are optimal business organisations It instead provides an in depth and frank analysis of the internal working of industrial organisations and of the interplay between cartels and political powers and institutions The International Aluminium Cartel offers explanations for the construction and collapse of cartels descriptions of their operations and an historical interpretation of their experiences Incorporating information gleaned from a unique collection of private and public archives from several countries this unique study will appeal to a wide variety of readers including academics interested in industrial and business history Drifting Together John N.

Levy,M. Roseman,2001-12-14 A brief glance at twentieth century European history would suggest that wars and their aftermath produced the major turning points in its development Three times in 1918 1945 and again in 1989 Europe was confronted with major questions of restructuring and rebuilding But can we really divide Europe s development into neat postwar eras Why was the period 1945

1989 so much more stable and prosperous than 1918 1939 Has the end of the cold war changed the basis of the post 1945 settlement This comparative collection offers some unique insights into these questions *Journal of World Trade* ,2000
