Regional Development And The Local Community Planning Politics And Social Context:

Regional Development and the Local Community Clyde Weaver, 1994 **Regional Development and the Local Community** Clyde Weaver, 1984-11-08 A comprehensive critical history of regional planning in France Britain and the United States beginning with the emergence of regional planning during the late nineteenth century Relates regional planning to the general evolution of social science and analyzes its development in the context of social theory economic and political conditions and societal change *Planning Canadian Regions* Gerald Hodge, Ira M. Robinson, 2007-10-01 Planning Canadian Regions is the first book to consolidate the history evolution current practice and future prospects for regional planning in Canada As planners grapple with challenges wrought by globalization the evolution of massive new city regions and the pressures for sustainable and community economic development a deeper understanding of Canada s approaches is invaluable Hodge and Robinson identify the intellectual and conceptual foundations of regional planning and review the history and main modes of regional planning for rural regions economic development regions resource development regions and metropolitan and city regions They draw lessons from Canada s past experience and conclude by proposing a new paradigm addressing the needs of regional planning now and in the future emphasizing regional governance greater inclusiveness and integration of physical planning with planning for economic sustainability and natural ecosystems Planning Canadian Regions will be a much needed text for students and teachers of regional planning and an indispensable reference for planning practitioners It will also find a receptive audience in such disciplines as urban planning environmental studies geography political science public administration and economics , **Regional Planning** John Glasson, Tim Marshall, 2007 This comprehensive introduction to the concepts and theory of regional planning in the UK Drawing on examples from throughout the UK is the essential up to date text for students interested in all aspects of this increasingly influential subject Entrepreneurship and Community Economic Development Monica C. Diochon, 2004-05 An exploration of the factors that influence a community s effectiveness in fostering entrepreneurship innovation and economic development **The Regional Imperative** Urrlan A. Wannop, 2014-02-04 Based on cases and interviews in Britain Europe and the United States this book explains the recurrence of regional planning and of initiatives in regional governance in a wide range of advanced industrial countries Providing an analysis of the nature of regional planning and governance the book traces the development of regional planning and the institutions associated with it It also looks at the way that regions have been changing their form under pressure from economic and political developments and examines how regional planning and governance has responded comparing experience in the UK the rest of Europe and the US In concluding that regionalism is an imperative feature of politics in most countries associated with almost any of the variety of forms of governance the author offers a major appraisal of the significance of regional planning in an international context International Encyclopedia of Human Geography , 2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen

Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context Planning Sustainable Cities and Regions Karen Chapple, 2014-09-15 As global warming advances regions around the world are engaging in revolutionary sustainability planning but with social equity as an afterthought California is at the cutting edge of this movement not only because its regulations actively reduce greenhouse gas emissions but also because its pioneering environmental regulation market innovation and Left Coast politics show how to blend the three Es of sustainability environment economy and equity Planning Sustainable Cities and Regions is the first book to explain what this grand experiment tells us about the most just path moving forward for cities and regions across the globe The book offers chapters about neighbourhoods the economy and poverty using stories from practice to help solve puzzles posed by academic research Based on the most recent demographic and economic trends it overturns conventional ideas about how to build more livable places and vibrant economies that offer opportunity to all This thought provoking book provides a framework to deal with the new inequities created by the movement for more livable and expensive cities so that our best plans for sustainability are promoting more equitable development as well This book will appeal to students of urban studies urban planning and sustainability as well as policymakers planning practitioners and sustainability advocates around the world **Global Challenge and Local Response** Walter B. Stöhr, 1990 The volume grew out of research undertaken as a part of the UN University's European Perspectives Project It addresses the consequences of the failure of large scale industrial enterprise and the inability of central government policies to cope with the results of economic restructuring in a series of comparative case studies showing how local communities throughout Europe East and West rural and industrial have responded to economic dislocation and decline and how these local initiatives have become the basis for economic regeneration Annotation copyrighted by Book News Inc Portland OR Planning Canadian Regions, Second Edition Gerald Hodge, Heather M. Hall, Ira M. Robinson, 2017-01-05 Planning Canadian Regions was the first book to integrate the history contemporary practice and emergent issues of regional planning in Canada This much anticipated second edition brings the discussion up to date applying the same thorough analysis to illuminate the rapid changes now shaping our regional landscapes This new edition draws upon contemporary analyses projects and literature to address issues of spatial complexity now facing regional

planners in Canada Special attention is paid to the regional planning dimensions of climate change adaptation and environmental sustainability across Canada the development inequities faced in peripheral resource regions the role that Aboriginal peoples must play in the planning of their regions and the distinctive planning needs of metropolitan regions across the country This book challenges planners educators and policy makers to engage with the latest thinking and strive for best practices in twenty first century regional planning

Planning the Twentieth-century American City Mary Corbin Sies, Christopher Silver, 1996 Arguing that planning in practice is far more complicated than historians usually depict the authors examine closely the everyday social political economic ideological bureaucratic and environmental contexts in which planning has occurred In so doing they redefine the nature of planning practice expanding the range of actors and actions that we understand to have shaped urban development

Postmodern Geographies Edward W. Soja, 1989 Written by one of America's foremost geographers Postmodern Geographies contests the tendency still dominant in most social science to reduce human geography to a reflective mirror or as Marx called it an unnecessary complication Beginning with a powerful critique of historicism and its constraining effects on the geographical imagination Edward Soja builds on the work of Foucault Berger Giddens Berman Jameson and above all Henri Lefebvre to argue for a historical and geographical materialism a radical rethinking of the dialectics of space time and social being Soja charts the respatialization of social theory from the still unfolding encounter between Western Marxism and modern geography through the current debates on the emergence of a postfordist regime of flexible accumulation The postmodern geography of Los Angeles exposed in a provocative pair of essays serves as a model in his account of the contemporary struggle for control over the social production of space

Rural Analysis and Management Francisco J. Tapiador, 2007-09-28 This handbook possesses two virtues that are becoming increasingly difficult to find together The first one is providing a novel and original scheme to analyze the rural areas of the planet in the context of Earth sciences The handbook is so original in its plan that it actually defines what modern rural science is The scheme followed albeit new is rooted in a venerable geographical tradition and presents a sensible balance between the academic and the applied viewpoints This novel way of studying rural areas represents by itself a valuable contribution to this complex field The second virtue of the book is the ability of synthesizing the most important aspects of the issues tackled and there are many issues this book tackles from physical to human geography and from deontology to matrix algebra When writing a handbook in such a vast field as rural science it is indeed tempting to accumulate meaningless information assisted by the wealth of available online information On the other side the danger of forgetting essential aspects is always present None of these problems seems to have affected the making of this book The pictures and tables always have a place the text never loses its coherence and no comment seems superfluous Also the ambitious scope of the book is seemingly effortlessly solved by a rational clear and logical scheme that dissects all the relevant issues up to the required point

Urban Policy in the Time of Obama James DeFilippis, 2016-11-08 With his background as a community

organizer and as a state legislator representing Chicago's South Side Barack Obama became America's most urban president since Teddy Roosevelt But what has been his record in dealing with the issues most impacting our metropolitan areas today Looking past the current administration what are the future prospects of the nation's cities and how have they been shaped by our policies in this century Seeking to answer these questions the contributors to *Urban Policy in the Time of Obama* explore a broad range of policy arenas that shape both directly and indirectly metropolitan areas and urbanization processes This volume reveals the Obama administration's surprisingly limited impact on cities through direct policy initiatives such as Strong Cities Strong Communities Promise Neighborhoods and Choice Neighborhood Initiatives There has been greater impact with broader policies that shape urban life and governance including immigration reform education and health care Closing with Cedric Johnson's afterword illuminating the Black Lives Matter movement and what its broader social context says about city governance in our times *Urban Policy in the Time of Obama* finds that most of the dominant policies and policy regimes of recent years have fallen short of easing the ills of America's cities and calls for a more equitable and just urban policy regime Contributors Rachel G Bratt Tufts University Christine Thurlow Brenner University of Massachusetts Boston Karen Chapple University of California Berkeley James Fraser Vanderbilt University Edward G Goetz University of Minnesota Dan Immergluck Georgia Tech Amy T Khare University of Chicago Robert W Lake Rutgers University Pauline Lipman University of Illinois at Chicago Lorraine C Minnite Rutgers University Camden Kathe Newman Rutgers University Deirdre Oakley Georgia State Frances Fox Piven City University of New York Hilary Silver Brown University Janet Smith University of Illinois at Chicago Preston H Smith II Mount Holyoke College Todd Swanstrom University of Missouri St Louis Nik Theodore University of Illinois at Chicago J Phillip Thompson MIT

Routledge Library Editions: Economic Geography
Various, 2021-06-23 The books in this set originally published between 1968 and 1992 introduce the reader to the many lines of thought in the literature on economic geography and tie these various aspects together within the concept of the economy As well as providing a comprehensive overview of the Western European economy since the Second World War and including specific studies and assessments of the Dutch and Italian economies these volumes examine the economic factors that have shaped cities and patterns of urbanization

Geography And Development Arthur Morris, 2005-08-15 First published in 1998 Written in a highly accessible style this book examines economic development processes across the world The old certainties of what constitutes development and whether it is the same for all peoples no longer exist Goals once imposed by agencies like the World Bank are increasingly questioned and the spatial development planning characteristics of the 1960s and 70s is increasingly seen as an intrusion into free and competitive markets Indeed a question now being asked is should development be promoted at all This book examines these fundamental issues and presents and evaluates the different theoretical approaches to development Each country has its own tale to tell and by using valuable case study material the author shows how different policies have impacted on the geography of regions Processes of development in the newly

industrialised countries NICS of South Korea and Singapore are examined as well as the flexible specialisation model characteristic of many Mediterranean countries and the post industrial service economies based on high technology The book argues convincingly that the fundamental spatial and temporal patterns of development in modern times are no longer the importance of physical resources but the complex human resources and the determination to work Anchored firmly in the needs of students this book will be widely welcomed by undergraduates taking courses in human geography and development studies Protected Areas and the Regional Planning Imperative in North America James Gordon Nelson, Lucy M.

Sportza, 2003 Based on a workshop on Regional Approaches to Parks and Protected Areas in North America held at Tijuana Mexico March 1999 p xv Cross-Border Governance in the European Union Barbara Hooper, Olivier Kramsch, 2004-08-02

This book discusses and evaluates the problems of governance within the European Union s cross border regions from diversity of perspectives and over a range of selected case studies *Regions in Recession and Resurgence* Michael Chisholm, 2015-03-27 The world economy has undergone rapid evolution in recent decades along with changes in the importance of industries and their organization and sharp changes in the fortunes of regions There are differences of opinion regarding the mainsprings of change and development and the role of governments in fostering national output In order to show the relevance of these changes to regional economies the book focuses on the different schools of economic thought from the neo classical through Keynesian to Marxist radical ideas and monetarist supply side thinking providing a brief description of their structure in non spatial terms The way these theories map into contrasting ideas regarding the mechanisms of regional economic growth is then explained The book concentrates on developed economies and explicitly seeks to confront theory with fact fact with theory Bringing together non spatial economic theory regional growth theory and relevant empirical data this book is intended for students in geography and regional economics but will also be of interest for those studying politics and government
