exhibitions or walking in the countryside This volume examines the performance of Nordic heritage and the shaping of the very idea of Norden in diverse contexts in North America the Baltic and the Nordic countries and examines the importance of these places as sites for creating and preserving cultural heritage Offering rich perspectives on a part of Europe which has not been the centre of discussion in the Anglophone world this volume will be of value to a wide readership including cultural historians museum practitioners policy makers and scholars of heritage ethnology and folkloristics *The Value of Arts and Culture for Regional Development* Lisbeth Lindeborg,Lars Lindkvist,2013-08-21 In this new volume 28 Scandinavian researchers and others who are active in arts and culture seek to answer the questions What has been the effect of regional and local investment in arts and culture And what positive and negative experiences have there been This book describes and analyzes the extent to which cultural investments at local and regional levels have stimulated development and led to essential processes of change for the community in general Of special interest is how different places manage to turn the tide What do their development processes involve Which ways and means do they use to go forward in order to change their paths and start anew These are just a few of the important questions addressed in this book One of the most important findings is that while you can never transfer the successful renewal of one place to another like a blueprint certain common patterns in the cultural processes are discernible The contributors to this book show the breadth of theoretical tools that can be used to increase awareness of the significance of culture for regional development Throughout the book readers will find a multitude of theoretical concepts from entrepreneurship theory organizational institutionalism and cultural economy to cultural planning and art management This book will appeal to scholars and practitioners of urban and regional studies and cultural and creative economics **Urban Life in Nordic Countries** Heiko Droste,2023-12-18 Based on empirical studies this book investigates the particular urban history of the North from the 17th century until today in a comparative Northern perspective Urban Life in Nordic Countries is the result of a conference on Urbanity in the Periphery held in Stockholm on the occasion of the 100th anniversary of the Institute of Urban History at Stockholm University aimed at establishing the field of the urban history of the North and creating a network of urban historians of the North With a broad range of contributions from Sweden Finland Denmark Norway and Estonia the volume seeks to further discourse on the region within national and transnational lenses and to highlight possibilities for new cooperation among researchers Urban history is a transdisciplinary subject engaging not only historians but also ethnologists sociologists urban planners and cultural geographers and this book targets all scholars whose work requires a historical understanding of the Northern town European urban historians outside the region will also find this text valuable as one of the few studies to consider the urban history of the continent from a North centered viewpoint In the Doorway to Development Ragnhild Hutchison,2012-03-02 Set within the growing literature on European economy in the late 18th and early 19th century this book furnishes a pre history to Norway s rapid structural transformation and accelerated economic growth after the mid nineteenth century It

argues that Norway in the long 18th century benefitted from an export led growth which exploited its abundant natural resources The income from exports fuelled a substantial increase in consumption among rural households while pluriactivity a household strategy to balance market oriented production and consumption with self sufficiency in the insufficiently developed market succeeded in offering a soft way toward modern market society **Alan S.
